Allied Troops Advance On Flanks Of Korean Front

Strong Thrusts Are Being Made By U.N. Troops

Massive Air And Artillery Barrages Precede Ground Moves

By HOWARD HANDLEMAN
(Far Eastern Director, I. N. S.)

TOKYO, May 7.—Allied troops jumped off on both flanks of the Korean front today in their first heavy ground attacks since the start of the unsuccessful Chinese Red offensive two weeks ago.

Other United Nations tank-infantry units lashed north in the center and speared into the mountain bastion of Chuncheon as the Allied forces retook the initiative at several points along the battle line.

The strong thrusts were unleashed after the Communists posed a threat to Allied command of the Korean skies by sending night flying twin-engine jets into the air in attacks on UN light bombers.

Preceded by massive artillery and air barrages, armor-led UN assault columns went over to the attack in the western and extreme eastern sectors Monday morning.

Now on Offensive
Front correspondents reported Monday night that the Allied troops had "switched to offensive actions," but official Eighth Army sources cautioned that these did not yet comprise a real counter-offensive. These sources called the actions reconnaissance strokes "in force."

In the west sector the UN tankers and infantrymen struck hard against stiff Red opposition north-west of Seoul on the road to Mun-san and to the north in the vicinity of Uijongbu, 11 miles above the capital.

At the opposite end of the front, ROK (Republic of Korea) troops attacked up the eastern coastal highway north of the 38th Parallel. Farther inland, other South Korean forces sent a patrol above the parallel.

"Probing in Force"
A Monday night message from U.S. Eighth Army headquarters in Korea said the twin Allied attacks were described as "probing in force" rather than a major counter-offensive.

But they were the first UN ground blows "in force" since the

Man Is Strangled By Automatic Film Machine

CHICAGO, May 7.—(INS)—A 17-year-old youth who was developing films in the darkroom of a photo shop was killed yesterday when he was caught by the neck and strangled by an automatic film processing machine.

The victim was John Kolweit, who was operating the machine at the North Shore Photo Service shop in Crystal Lake, a Chicago suburb.

Kolweit, a part time employee, apparently was caught between the film moving arm and the top of a tank containing developing solution. The pull exerted by the one-sixth horse power electric motor held him until he was strangled.

HERBERT MASHALL ILL
HOLLYWOOD, May 7.—(INS)—Actor Herbert Marshall was reported seriously ill today at Cedars of Lebanon hospital.

Marshall entered the hospital a few days ago for minor surgery. He was recovering when an embolism of the heart developed.

His wife, Boots Mallory, remained at his bedside.

New Type Night Flying Red Jet Planes Make Attacks

By DON A. SCHANCHE
(I. N. S. War Correspondent)

FIFTH AIR FORCE HEADQUARTERS, Korea, May 7.—New-type night flying communist jets, believed to be twin-engine fighters, made their second attack of the Korean war on United Nations aircraft early today, extending Red jet operations farther south than ever before.

The first such pre-dawn attack by the newly introduced enemy jets was carried out early Sunday. In each instance, a lone American

B-26 light bomber was "jumped" and each time the B-26 escaped damage.

South of Pyongyang

Both attacks were carried out south of Pyongyang, the North Korean Red capital. The second was made during Monday's pre-dawn hours and extended all the way down to Chinnampo, 110 air miles south-southwest of Sinuiju on the Yalu river boundary between Korea and Manchuria. Probe Crash Of B-36 Bomber Taking 23 Lives

Air Force Plane In Crash Disaster At Oklahoma Base

ALBUQUERQUE, N.M., May 7.—(INS)—Air force authorities begin an investigation today into the reason for the sudden crash of a B-36 bomber which carried 23 men to fiery deaths during a routine landing at Kirtland Air Force Base.

The giant aircraft, largest operational ship in use by the air force, had circled the air base near Albuquerque yesterday afternoon and was approaching the runway to land when one wing suddenly dipped, causing it to slip to the ground.

Col. Perry Griffith, commanding officer of the Kirtland base, looked out upon the scene of the wreckage from his home a few seconds after the crash and reported the "field looked like a burning oil field."

Crash crews reached the point of impact seconds after the ship hit the ground but they could only manage to drag two crew members from the intense flames and black smoke.

Fire Threatens Davis Company

\$5,000 Damage Done Late This Morning

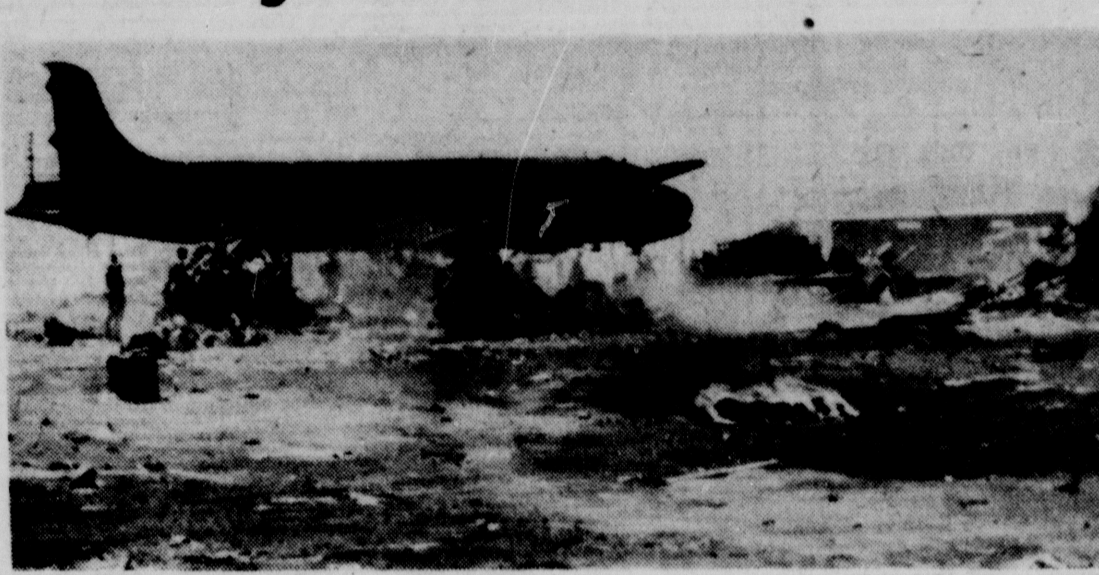

Fire which originated in a storage shed of the Davis Coal and Supply company at 11:29 a. m. today, threatened destruction of the Davis Co. holdings, at 1126 Moravia street.

A loss of around \$5,000 was sustained, which is covered by insurance.

The fire started when a scrap of paper from a bonfire blew into the shed in which straw and peat moss was stored, along with other materials, and within a few seconds the entire structure was ablaze.

ALBUQUERQUE, N. M.—The scattered wreckage of an Air Force B-36 bomber smolders on the flight line of the Kirtland Air Force Base here after the sky giant crashed during landing. Twenty-three persons were reported killed and two others critically injured in the crash. The large plane at the left was burned by flaming wreckage.

Wilson Battles Effort To Trim Control Powers

WASHINGTON, May 7.—(INS)—Defense Mobilizer Charles E. Wilson appears before the Senate Banking committee today to combat an effort to trim the controls powers asked by the administration for the next two years.

Wilson's appearance follows his appeal to all state and city governments to curb inflation by postponing all non-emergency spending, including veterans bonuses and construction of war memorials.

Wilson, in an unprecedented move, wrote every governor and mayor in the nation to submit to a regional voluntary credit restraint committee being set up by the government any proposal to borrow one million dollars or more.

Sen. O'Mahoney (D., Wyo.), chairman of the joint congressional committee on the economic report, declared that inflation has boosted army costs by more than 25 percent in the past four months.

Wilson is the first of a long series of witnesses to appear at hearings on the President's draft of a bill extending and strengthening the defense production act of 1950, which contains present controls authority. The House Banking committee will start similar hearings tomorrow.

The new Austrian run-off election to choose the successor to the late and revered President Karl Renner will be held within 35 days. It will be a contest between the conservative Heinrich Gleissner of the Catholic People's party and Socialist Theodor Koerner, since they received the highest number of votes. Such a run-off is provided for under Austrian law when no candidate receives a clear majority.

This new election places the Austrian League of Independents, supported by many former Nazis, in an excellent bargaining position. The league backed third place Burghard Bretnner whose polling of 15.4 per cent of the votes actually caused the run-off.

The Communist candidate Gottlieb Fiala was a poor also-ran, coming in fourth out of the six candidates with a total vote of 220,012 for a bare 5.1 per cent of the total.

Israeli Government Charges Syrian Troops Open Fire

TEL AVIV, May 7.—The Israeli government charged today that Syrian troops fired 150 rounds of rifle bullets and some machine-gun shells on the Egebe settlement on the shore of Lake Tiberius (the Sea of Galilee) but no casualties occurred.

The demilitarized border zone otherwise was quiet.

(In Damascus, the Syrian government again complained to the U. N. Security Council regarding frontier incidents. A spokesman denied Israeli charges that regular Syrian troops have invaded the demilitarized zone.)

The armistice between Israeli and Syria arranged by the U. N. was broken last week, with both nations accusing the other of taking hostile initiative.

THEATER IS ROBBED
PITTSBURGH, May 7.—(INS)—A bold bandit robbed the State Theater in Pittsburgh of \$40 yesterday, about a half hour after it opened.

Cashier Betty Lou Grant said the thief handed her a note which read:

"Give me your money, don't be funny."

When she told him, "it's not very much," he replied:

"Give me your greenbacks. Don't try anything or I'll kill you."

After Miss Grant gave him the cash, she pressed a buzzer with her foot. An assistant manager chased the bandit several blocks in daylight.

U.S. Ambassador Handed Statement By Soviet Official

MOSCOW, May 7.—(INS)—United States Ambassador Alan G. Kirk was summoned to the Soviet foreign office today and was understood to have been handed an important statement.

The contents were not disclosed. The call to Kirk came from Deputy Foreign Minister Bogolomov.

Austria To Have Run-Off Election

No Candidate In Presidential Election Receives Majority

VIENNA, May 7.—(INS)—The failure of any candidate to receive a majority forced Austria's presidential election today into run-off balloting.

The New Austrian run-off election to choose the successor to the late and revered President Karl Renner will be held within 35 days.

It will be a contest between the conservative Heinrich Gleissner of the Catholic People's party and Socialist Theodor Koerner, since they received the highest number of votes. Such a run-off is provided for under Austrian law when no candidate receives a clear majority.

Heavy Death Toll Is Feared In Earthquake

(BULLETIN)

SAN SALVADOR, May 7.—(INS)—A heavy death toll was feared today in the wake of a violent earthquake in the coffee plantation region of El Salvador.

Tremendous damage was reported in Chinameca, a city of 17,000, and at Jucupa, with a population of 12,000, approximately 100 miles east of San Salvador.

First reports said there was a possibility that hundreds may have been killed.

The tremor occurred at 5:30 p. m. yesterday with the epicenter at the active volcano of San Miguel. Landslides followed the quake.

The Salvadoran Red Cross mobilized all its facilities and the government is taking all possible measures. The quake and landslides disrupted communications, making an immediate check of casualties and damage impossible.

Today was to have been a national holiday, the "Day of the Soldier" but officials cancelled all festivities owing to the disaster.

U.S. Agrees To Defend Iceland

WASHINGTON, May 7.—(INS)—The United States and Iceland signed an agreement today where-

by the U. S. will be responsible for the defenses of Iceland and will have the right to establish bases there.

The announcement of the signing, made at the State department, revealed also that an unspecified number of U. S. security forces is already stationed in Iceland under the terms of the agreement.

A defense spokesman said that the original force flown into Iceland consisted of about 200 security troops, and that this force will be gradually augmented.

The agreement was signed by Icelandic Foreign Minister Bjarni Benediktsson and U. S. minister to Iceland, Edward B. Lawson. The agreement was reached at the request of the North Atlantic treaty organization, which Iceland joined at its inception.

Thousands Homeless In Philippines Storm

MANILA, May 7.—(Monday)—(INS)—The unofficial death toll in the Philippines typhoon rose to 15 today and thousands were rendered homeless by the storm which swept through the central Philippines and southern Luzon.

The death toll rose after five persons were reported to have been killed in Catbalogan City on Samar Island. Previously, four airmen and six crewmen of a small boat were reported killed.

Property damages were expected to run into the millions from the typhoon, now moving in a west-northwesterly course at a speed of 14 miles per hour. It was centered, 250 miles west-northwest of Manila at 8 a. m. Monday.

Gen. MacArthur Ouster Facts Being Sought

Expect Action Of Joint Chiefs Of Staff To Be Probed

(BULLETIN)

WASHINGTON, May 7.—(INS)—Defense Secretary Marshall declared today that Gen. MacArthur's proposals for winning the Korean war never were "vetoed" by the Defense department or higher authority but became unnecessary because of improved conditions at the front.

Marshall testified that from the beginning of the Korean conflict there has been "no disagreement" among the president, defense secretary and joint chiefs of staff, but that "basic differences" exist between them and MacArthur.

By WILLIAM THEIS
(I. N. S. War Correspondent)

WASHINGTON, May 7.—Defense Secretary Marshall reportedly testified today that the joint chiefs agreed at first with Gen. MacArthur's battle plan for Korea but that conditions "changed" and it was not followed.

Marshall was said by one senator to have referred to the January 12 memorandum of the joint chiefs which MacArthur last week cited as his evidence of Washington's support for his program.

But the cabinet officer was not immediately pressed to tell who

overrode the joint chiefs. MacArthur testified he "assumed" it was Marshall or President Truman.

Prepared Statement
Sen. McCarthy (R., Wis.), who left the hearing early, said that Marshall began his testimony with a prepared statement defending in general terms the administration's policies in Korea.

The hearing into Far Eastern policies started at 10:35 a. m. EST. The general was escorted to the hearing room by Sens. Byrd (D., Va.), and Bridges (R., N.H.), who (Continued on Page Two)

The miracle of spring has come again, the forests garb themselves in verdant green, the fragrance of the flowers fills the air, the mosses add a fillip to the scene. The blueets form a carpet on the hills, the violets with their purple, charm the eye, the dogwood shows that it will be here soon and over-head a fleecy azure sky. Begone the blare of bugles and of guns, for here is peace for spring is holding sway, and just ahead is summer with its charm, it's brilliant and sixty three today.

As Central Church Cornerstone Is Laid

Dr. Robert Meade Patterson, pastor of the Central Presbyterian church lays in a trowel of mortar during the cornerstone laying ceremony for the new church building on the Wilmington road. Sunday afternoon. The new building will replace the former church structure on the Public Square which was destroyed by fire.

Cornerstone Of Central Church Is Laid Sunday

Laying of the cornerstone of the new Central Presbyterian church in Neshannock township, on Route 18, just north of the city, drew an outdoor audience of approximately 300 on Sunday afternoon.

The brief but impressive ceremonies were directed by Dr. Robert M. Patterson, pastor of Central church and got under way at 3 o'clock, with the Sunday school orchestra playing the "Call to Worship." The responsive reading was led by Dr. Patterson and participated in by the audience.

Dr. Rowland H. White, pastor of the Neshannock Presbyterian church at New Wilmington and moderator of Shenango Presbytery offered the prayer of the afternoon followed by the reading of the scriptures from Luke 2:40-52 by Dr. Patterson.

Boat Capsizes In Lake; Four Sailors Drown

EVANSTON, Ill., May 7.—(INS)—Naval craft resumed the search today for three of four sailors who drowned when a towering, slashing wave capsized their salvage boat in the choppy waters of Lake Michigan.

Spectators lining the beach near Northwestern University's Evanston campus helped rescue eight other Navy men yesterday after they were tossed into the lake by the sudden sinking of the craft.

The 12-man crew of the 30-foot LCVF (landing craft, vehicles and personnel) was attempting to salvage a Navy jet plane which crashed in the lake Friday. They also were searching for the pilot, who is presumed drowned.

A diver—identified as Roy J. Clark, 26, Clarksburg, Va.—had just risen to the surface, his waist even with the boat's opened landing ramp, when the huge wave struck the craft.

Many Seek To Aid
Water rolled over the vessel and in less than a minute it submerged. Clark, a metalsmith third-class, sank immediately with his heavy suit and died without a chance of rescue.

Above a dozen persons who had been watching the operation leaped into small boats to aid the crew members whose heads were bobbing in the lake. Others dove into the water to pull floundering seamen ashore.

Three Navy planes were called out to drop life preservers. The body of 48-year-old Frank J. Plocki, a chief boswain's mate, was retrieved by volunteers in a small boat. Plocki was a veteran of 30 years service and had planned to retire to his home at Albany, N. Y., next year.

Clark's body could not be found and an extensive search failed to locate two other missing men. One was identified as seaman William Millheim Jr., 21, Philadelphia.

Nebraska Hero On Way To Washington To Receive Medal

SAN FRANCISCO, May 7.—(INS)—A former Nebraska farm boy who led a tank crew in holding off an attack by 500 Communist troops in Korea is due in San Francisco today enroute to Washington to receive the Congressional Medal of Honor from President Truman.

Master Sgt. Ernest R. Kouma, 31, of Dwight, Neb., will be the first veteran of the Korean war to receive the nation's highest decoration from the hands of the president.

Nine others awarded the Medal of Honor in Korea are dead or missing in action.

Strong Thrusts Are Being Made By U.N. Troops

(Continued from Page One)

Reds launched their "first round" offensive which was halted after more than 80,000 casualties were inflicted on the enemy.

The Eighth Army's Monday night communiqué said heavy Red resistance to Allied patrol thrusts continued during the day on the road to Munsan northwest of Seoul.

* Presumably, the Allied attack on the western front was proceeding up routes leading north or northeast from the South Korean capital. Several times in the past few days, American tank-infantry teams had started through the gateway hub of Uijongbu, 11 miles due north of Seoul.

* On the mountainous central front, the Eighth Army bulletin related, an armored Allied patrol reentered the pivotal fortress hub of Chunchon, eight miles south of Parallel 38. This vital center had been lost to the Reds during their recent southward push.

* At the east end of the transpeninsular front, the Monday night communiqué said, a Communist battalion was "contacted" east-southeast of Inje which fired four miles above the parallel dividing line between South and North Korea.

PROBE CRASH OF B-36 TAKING 23 LIVES

aboard the ill-fated craft was withheld pending notification to next of kin.

Col. Griffith said he heard the engines of the B-36 stop suddenly as the plane passed near his home but by the time he rushed to the window the control tower operator was ringing his phone to report the crash.

The commanding officer related: "When I got there, the crash crews were already at work on the scattered fires. Fire fighters had a difficult time because of the strong wind which whipped at the sand every now and then, but the crash crews had goggles and worked steadily to put the fires out in no time."

Col. S. R. Voscer, officer of the day, said he saw the wing of the plane make its sudden dip and added:

"The plane just seemed to slip right into the ground for no reason."

The huge B-36 was powered with six pusher type reciprocal engines with propeller and four jet units. The crash was the fifth involving the \$3,500,000 bombers since they were put into operational use in 1946 and the second within a two-week period. The other crashes claimed a combined total of 26 lives.

NEW TYPE RED JET PLANES MAKE ATTACKS

(Continued from Page One)

Chicago, pilot of the B-26 attacked before dawn Sunday by three of the new-model Red jets, related: "They came in fast and were very aggressive. I could see enough of them to tell that they were jets."

Morgan was flying his light bomber on a night intruder mission, part of the air offensive designed to block the enemy's front-bound traffic down North Korea's roads.

Previously, the only enemy jets encountered over Korea were the Russian-type MIG-15 single-engine planes, many of which have been shot down and others damaged in combat with American fighters.

In Memoriam

In loving memory of our Wife and Mother, Bettie Jayne Buchanan Hahn, who passed away suddenly a year ago, May 7, 1950. I cannot say—and I will not say That she is dead . . . she is just away!

With a cheery smile and a wave of the hand She has wandered into an unknown land.

And I—who the wildest yearn For the old-time step and the glad return

Think of her faring on, as dear In the love of There, as the love of Here,

Think of her still as the same, I say, She is not dead . . . she is just away.

GEN. MACARTHUR OUSTER FACTS SOUGHT

(Continued from Page One)

performed this duty for the three days Gen. MacArthur was a witness last week.

"No discrimination" was the order of the day.

Marshall was first taken to the Senate agriculture committee room which has an entrance into the caucus room where the closed hearings are being conducted.

The armed services-foreign relations committee was in a special closed session trying to decide whether to publish some material "deleted" last week by Adm. Arthur Davis, the Pentagon representative editing the transcript for security matter.

Marshall waited in the ante-room while the other business was being conducted.

Before starting today's session, the committee opened its doors for photographers who snapped Marshall as he shook hands with Chairman Russell (D) Ga. Sen. Connally (D) Tex., and other committee men.

After a brief word of greeting to individual senators, Marshall quickly stepped to the witness table and the hearing room doors were closed.

Faces Sharp Grilling

It is anticipated that Marshall faces the sharpest grilling of his 49-year career as a public servant.

The secretary, who like MacArthur is 71 and a five-star general, is expected to endorse Mr. Truman's abrupt dismissal of MacArthur for being "unable to give his wholehearted support to the policies of the United States government."

Marshall will be asked to answer MacArthur's charge that he vetoed a recommendation by the joint chiefs of staff that the turning of Formosa over to Communist China and giving her a United Nations seat should not be included in any talks toward peace in Korea.

Marshall will be asked in detail the part he played in MacArthur's ouster.

Will Be Asked To Answer

Senators said the secretary also will be asked for his answer to MacArthur's statement that the Communist world war has begun in Korea and that unless the U. S. heeds the nature of the conflict, this country is "doomed to destruction."

Marshall is the first administration witness at the fateful hearings of the Senate armed services-foreign relations committee.

MacArthur began his case before the Senate "jury" a hero of the public. He left with praise from Democrat and Republican alike ringing in his ears. Senators applauded the former Pacific commander for the sincerity of his convictions and the lucidity with which he stated them.

Marshall, appearing as something of a defense witness not only for himself but also for President Truman, takes the stand in the wake of a storm of public protest over MacArthur's firing and the apparent stalemate of the Korean war.

FIRE THREATENS DAVIS COMPANY

(Continued from Page One)

fire communicated to another shed attached to the main building, and for a time it looked as if a more serious conflagration might result, but firemen brought the blaze under control within a few minutes after they arrived at the scene.

The morning was a most exciting one for Ivor V. Davis, the owner of the concern. He was attending a directors' meeting of the First National Bank of Lawrence County when informed of the fire. Just a half hour previous, he had received word that a daughter had been born to his daughter, Mrs. Evelyn Porada, at the Jameson Memorial hospital.

CORNERSTONE OF CENTRAL CHURCH IS LAID SUNDAY

(Continued from Page One)

terian church aptly used "My Father's House" as the subject of his inspirational address. He commended the church officials for their progressive step pointing out it was a high time in the church history and a memorable occasion for the congregation.

The speaker enumerated a few things that would make the earthly house of worship "Father's House," including the sacrifice of the members in preparing the earthly house of worship and the enthusiastic spirit of those who would assemble in it upon its completion.

In concluding his thoughts Dr. Galbreath stated that he was not only speaking his own sentiments, but those of the community in which the church was situated. He congratulated the group on the site chosen and for the splendid progress made. He bid them God speed in their task.

Copper Box Placed

J. Glenn Anderson, chairman of the building committee was in charge of the placing of the cornerstone and called upon Clifford Propst who actually placed underneath the stone the copper box measuring approximately 4x8x14 inches. The box contained church records which will be preserved for posterity. George R. McClelland placed the first concrete under the stone which bears three crosses and the numerals "1950."

Marjorie McAnis oldest member in point of service in the church, having joined 60 years ago, placed a trowel full of cement underneath the stone. Mrs. George Murdoch, the newest member, having joined only three and a half hours previously, also placed a trowel of cement underneath the large corner stone, as did Robert Stoner and Miss Gertrude Patterson, aged 12, the two youngest members of the church.

Dr. Patterson, with a gold trowel, placed the last of the concrete under the stone after which he led in prayer. The congregation joined in its building campaign hymn "God of Our Fathers" to close the exercises.

Members of the church and visitors during the afternoon were given opportunity to inspect the building progress thus far. It is hoped that partial occupancy of the new church can be effected later this year if progress continues in the future as has been seen in the past few weeks.

GOV. DEWEY RETURNS

NEW YORK, May 7.—(INS)—Gov. Thomas E. Dewey was back home from a three-week Bermuda vacation today, looking and feeling fit.

The New York governor said on his arrival by plane last night that he has rid himself of the virus infection that had him ailing for a month before his vacation.

Gen. Wedemeyer Asks Retirement

WASHINGTON, May 7.—(INS)—Lt. Gen. Albert C. Wedemeyer, whose long-suppressed secret report warned of Russian-aided Communist aggression in Korea nearly three years before it came, has asked for retirement from the U.S. Army.

TEMPLE SISTERHOOD HAS DONOR DINNER

Speaking to a large attendance at the annual donor dinner held Sunday evening at 6 o'clock by the Temple Israel Sisterhood, at Temple Israel, Mrs. Harold M. Baum of Milwaukee, Wis., used the topic "Divided We Fall." She told of her experiences as one of the delegates of the National Federation of Temple Sisterhoods to the International Conference of the World Union of Progressive Judaism, held in London in July, 1949.

She also told of the Jewish communities and their leaders which she visited in a number of European countries before returning to the United States. Mrs. Baum is a leader of the National Federation of Temple Sisterhoods, one of the world's largest Jewish women's religious organizations. The talk was enthusiastically received by the audience.

Preparations for this annual donor dinner, held on the birthday of the founder of the Temple, were capably arranged by the various committee chairmen and their committees.

Opening the program, Mrs. Iwan Gruen gave the invocation and the State Sisterhood song was sung. Mrs. Daniel Fisher, program chairman, extended greetings and presented Mrs. Elijah Kaplan, who presided as the gracious toastmistress for the evening. Rabbi Iwan Gruen, spiritual leader of Temple Israel, Ab Levine, president of Temple Israel and J. F. Perelman, one of the founders whose birthday was honored, spoke briefly. Songs were sung by James Meyers, accompanied at the piano by Mrs. James Meyers, after which a whimsical playlet entitled "The Thing" was presented by the following sisterhood members: Mrs. A. Slovansky, Mrs. Lawrence Perelman, Mrs. H. Greenberg, Mrs. H. Friedman, Mrs. J. Markley, Mrs. S. Levin, Mrs. Charles Levine and Mrs. H. Frank.

Tables for the dinner were beautifully decorated in the sisterhood colors, purple and white, with Mrs. Joseph Brown, chairman of the donor dinner, and her committee in charge of decorations. Mrs. William Cosel wrote the State Sisterhood song and lyrics of other songs were written by Mrs. Maurice Schoenberger. Mrs. Mont Blau was in charge of reservations and Mrs. Bernard Rosenthal and Youth Group members were responsible for the souvenir programs.

Officers of Temple Israel Sisterhood, New Castle, include: Mrs. R. Rubenson, president; Mrs. J. Markley, secretary; Mrs. H. Wolfe, treasurer; Mrs. Dan Fisher, program chairman.

Members of the sisterhood will hold their monthly luncheon meeting, Tuesday, May 8, at 1 o'clock at Temple Israel, at which time election of officers will take place.

ZEBER-DOBSON EXCHANGE WEDS

Miss Ruth Annette Zeber and Robert LaVerne Dobson exchanged vows Saturday evening, May 5, at 7:30 o'clock in the Trinity Lutheran church, Ellwood City, Rev. J. Victor Murland of Pittsburgh and Rev. F. H. Daubenspeck of Ellwood City officiating at the lovely double ring ceremony.

J. Lyle Brower, an uncle of the bride, gave the bride in marriage. Mrs. Raymond H. Gan, sister of the groom, of Detroit, Mich., was matron of honor and Miss Carol Crum, niece of the bride, of Cleveland, O., was bridesmaid. Raymond H. Gan of Detroit, Mich., acted as best man and Alton Dobson of Pittsburgh and James English of Beaver acted as ushers. The bride's costume was a blush pink silk taffeta ballerina length gown with a nylon tulle overskirt. She wore a matching headpiece with a shoulder length veil and matching shoes. A cascade bouquet of Fleure De Amour, stephanotis and ivy was carried by the bride.

The bride's attendants wore apple green silk taffeta gowns of ballerina length, matching shoes, hand headpiece of stephanotis and carried spring flowers. Miss Norma Jean Howells sang three beautiful solos, "At Dawn," "The Pledge" and "The Lord's Prayer," with Mrs. George Atkins at the organ.

A reception was held for 150 guests at 8 p. m. in the church following the ceremony.

Mrs. Ruth Zeber Dobson is the daughter of Mrs. Sylvia Dahl Zeber, 1114 Arkansas avenue Pittsburgh, and a granddaughter of Mrs. Mathilda Dahl, Wayne avenue, Ellwood City. She attended Dormont high school, Duffs Iron City Business college and is employed as a secretary by the Kennametal Co., Pittsburgh.

Robert Dobson is the son of Mr. and Mrs. Clarence A. Dobson, 4013 Cloverlea street, Pittsburgh. He attended Washington-Irving high school and the University of Pittsburgh and is employed by the Koppers company in the engineering department.

Mr. and Mrs. Robert LaVerne Dobson left by automobile for a trip through Virginia and Washington, D. C., and on their return will reside at 1114 Arkansas avenue, Pittsburgh.

Lucky Nine Club
Meeting of the Lucky Nine club was held at the home of Mrs. Albert Dudich, West Pittsburg, with "500" prevailing as the main pastime.

Prizes were awarded to Mrs. Mary Ponzi and Mrs. Angelo Carvella. Refreshments were served.

The next meeting of the club will be on Wednesday, May 9, at the home of Irene Falatko, West Pittsburg.

TAU DELTA CLASS ANNUAL BANQUET

Members of the Tau Delta class of the Epworth Methodist church held their annual Mother-Daughter banquet in the church dining room Friday evening, Mrs. Charles Chamberlain, Jr., president, presiding.

Group singing of "America" opened the program and the invocation was given by Mrs. Albert Howe. A delicious banquet was served by members of the Dorcas Class. Group singing was again enjoyed.

Mrs. Job Hares, teacher, and Mrs. George Forrest, assistant teacher, were introduced and each spoke a few words to the group. A letter was read from a former teacher, Mrs. Charles Andrews, who now makes her home in Detroit. Mrs. Albert Howe was introduced and gave a short talk.

Mrs. J. F. Rentz was the main speaker of the evening. Mrs. Rentz spoke on the topic "The Good Old Days Are Now," a theme that was enjoyed by everyone.

A play, "Thank You Doctor," was given, program chairman, Miss Mildred Lusk, in charge. Those participating were: Mrs. Howard Brown, Mrs. William Drushel, Mrs. Louis DeLuria, Mrs. Joseph Campbell and Miss Pollyne Parker. Miss Shirley Williams and Miss Marion Williams sang several numbers, Mrs. Walter Gilmore at the piano.

Living pictures were then presented. "Memories" portrayed by Mrs. Clyde Williams and sung by Mrs. Charles Chamberlain, Jr., "Beautiful Lady in Blue" portrayed by Miss Marjorie Riney and sung by Mrs. Gilmore Smith. "Storyland" portrayed by Mrs. Humphrey Richards, Miss Rosalie DeLuria and Karen Fisher and sung by Mrs. Gilmore Smith. Mrs. Walter Gilmore accompanied them at the piano.

Gifts were presented to the oldest mother, Mrs. George Forrest, youngest grandmother, Mrs. William Drushel, and the mother with the youngest daughter present, Mrs. George Fisher.

DELORES FILIPPONE WEDS H. WEINGARTNER

An impressive double ring ceremony united the lives of Miss DeLores Marie Filippone, daughter of Mr. and Mrs. Albert Filippone, 228 Keystone way, Ellwood City, and Harold LaVerne Weingartner, son of Mr. and Mrs. Jesse G. Weingartner, R. D. 1, New Castle.

Wedding vows were exchanged by the young couple on Saturday, May 5, in the rectory of the Blessed Virgin Mary church of Ellwood City at 5:30 o'clock. Rev. Fr. Vincent Gallano performed the ceremony, with the bride being given in marriage by her father.

The attractive bride was attired in a ballerina length gown of net and Chantilly lace. The fitted bodice was featured with tiny buttons from the Peter Pan collar to the waistline, and cap sleeves were lovely accents of the costume. The bouffant skirt was fashioned of lace and net, and elbow length gloves tapered to points at the wrists. Her shoulder length veil of illusion cascaded from a crown of seed pearls and orange blossoms, and she carried a Bible topped with an orchid.

As maid of honor, Miss Constance Rutkowski wore a pink eyelet organdy ballerina length gown with a white picture hat and white opera pumps. Yellow carnations fashioned her colonial bouquet. Carl Mantz served the groom as best man.

A reception was held for 200 guests at the Catholic Center in Ellwood City, and the young couple later departed for a honeymoon to Washington, D. C. They will reside at 421 Smiley street, Ellwood City, upon their return.

Mr. and Mrs. Weingartner are graduates of the Lincoln high school of Ellwood City and the bride is employed at the Dust-Proof Mattress factory near Ellwood City. The groom is a driver for the Arthur F. Hazen & Son gasoline station.

RYAN-PITZER WEDDING NEWS

Mr. and Mrs. Joseph Ryan of 830 Arlington avenue announce the marriage of their daughter, Donna Jean, to John S. Pitzer, son of Mrs. Betty Pitzer, of North Mercer street.

The ceremony was solemnized by Dr. J. Paul Graham on April 21 at 2:30 o'clock in the Third U. P. church, with a reception following in the Hotel New Penn.

A pink suit and light blue hat were worn by the bride, whose flowers consisted of pink roses. Miss Audrey Sharrow, her attendant, wore a red suit with black and white accessories. Tom DeCarbo served the groom as best man.

Mr. and Mrs. Pitzer will make their future home in San Antonio, Tex., where the groom is stationed with the Air Force at Randolph Field.

The bride is a graduate of the New Castle high school with the class of 1950 and has been employed as an operator at the Bell Telephone company.

TEMPUS FUGIT DINNER PARTY

Members of the Tempus Fugit held a chicken dinner party Saturday evening, May 5, at a Harlansburg dining room.

Games of 500 were the diversion of the evening with high score prizes awarded to Mrs. Nancy Ginocchi and Mrs. Dom Vecchio. Mrs. Don Mooney captured the gallop prize. Mrs. Ginocchi received a birthday gift from her secret sister.

Next meeting will be held at the home of Mrs. Rose Ciampoli, 763 Lathrop street, on May 17.

U.A.C. Class Meets

Members of the U.A.C. class of the First Baptist church were entertained Friday evening, May 4, at the home of Mrs. Clifford Robison of the Ellwood road.

Devotions were led by Mrs. John Houk. Mrs. Charles Hennon presided over the business meeting, at which time missionary projects were discussed.

A social time followed with awards for games being won by Lucile Reno, Mrs. William Grove and Mrs. Harvey Black. Later, a delicious lunch was served by the hostess.

Mrs. Bruce Headland, 1101 Delaware avenue, will have the next meeting.

Legion Auxiliary To Meet

Members of the American Legion auxiliary No. 343 will have their regular business meeting this evening at 8 o'clock in the Legion Home, North Jefferson street, Mrs. John Speed, president, in charge.

JEEN-STER'S CLUB HAS MAY CROWNING

Regular meeting of the Jeen-Sters was held on a recent evening at the home of Delores Fullana, 1108 1/2 Agnew street.

A short business meeting was held discussing plans for forthcoming events. Games were enjoyed by the members present and a May crowning was the feature event of the evening with members participating.

Prizes for the games went to Donna Dietrich, Helen DePolis, Mary Ferrare and Mrs. Lucretia Fair, who was special guest. Delicious refreshments were served by the hostess, Delores Fullana, assisted by Betty DeSimone and Marie Cubellis, co-hostesses.

Next meeting will be held on Wednesday, June 6.

Entertains Volant Class

With Mrs. Robert Higgins and Mrs. Opal Grimm as co-hostesses, Mrs. Albert Breneman entertained members of the Young Women's Bible Class of the Volant Presbyterian church at her home near Volant.

During the business meeting which was in charge of Miss Edna Litzburg, president, plans were made for a strawberry festival. A meeting will be held in the Litzburg home May 18 to complete the arrangements.

At the conclusion of the meeting the hostess conducted a well planned program of action and pencil games, with prizes going to Mrs. Fred Cooper, Miss Litzburg, and Mrs. Miller. Other features of the entertainment were bingo, organ music by Mrs. R. H. Mahon, and vocal solos by Mrs. Charles Miller.

THE MORE SMOKERS TEST FOR MILDNESS... THE MORE CAMEL LEADS IN POPULARITY!...

Latest Published Figures Show Camel Has Increased its Lead as America's Favorite Cigarette—by Many More Billions!

There are several "quick trick" methods for testing mildness—a sniff of this cigarette, a puff of that. But after all is said and done, smoker after smoker has realized that there's only one true test: the sensible test of mildness is steady smoking. That's why millions of smokers have already made their own 30-Day Camel Mildness Tests! Today, more people get more pleasure from Camels than from any other cigarette!

Discover what you've been missing—start your own 30-Day Camel Test. In the best proving ground for a cigarette—your "T-Zone"—see for yourself how well Camels get along with your throat, puff after puff and pack after pack. See how much Camel's full, rich flavor pleases your taste. You'll soon find out for yourself why so many smokers say...

ONCE A CAMEL SMOKER,
ALWAYS A CAMEL SMOKER!

Will the Phils Win Again?

If Manager Eddie Sawyer has his way, they will! But, win, lose or draw, the Phils are Camel fans. Says Sawyer (below), "I'm a real Camel rooster. Camels are a cool, mild, great-tasting cigarette!"

Again Survey Shows Doctors' Choice

In the latest survey, conducted by an independent research organization, doctors in every branch of medicine—doctors in every State in the Union—were asked, "What cigarette do you smoke, Doctor?" Again—the brand named most was Camel! According to this repeated nationwide survey, more doctors smoke Camels than any other cigarette.

Risë Stevens Sings Praises of Camels!

SWEETHEART OF THE OPERA, Risë Stevens smokes Camels. Says Risë, "Camels have a wonderful taste I never found in any other cigarette—and a mildness that agrees with my throat! I discovered that when I made my own 30-day Camel Test! With Camels—every puff's a pleasure!"

The Best Way to Test Cigarette Mildness

How mild can a cigarette be? Find out for yourself—the sensible, thorough way. No tricks. No one-puff experiments. Smoke Camels regularly for 30 days. Let your own "T-Zone" (T for Throat, T for Taste) be the judge. You'll soon see why more people smoke Camels than any other cigarette!

DOLLARS ABOVE LIVES

The United States proposal to have United Nations members shut off shipment of all war material to Communist China is so logical to step that lack of such action hitherto can only be described as damnable. Actually there ought to be no need for formal action of this kind or for putting the matter to a vote. The nations themselves should see the tragic inconsistency of sending soldiers to fight in Korea and at the same time supplying the enemy with the weapons for killing them.

Of course, the detail that 90 per cent of the United Nations soldiers fighting in Korea are Americans enters into the willingness of other "free" nations to continue to arm the Red Chinese.

The British, of course, have been the greatest offenders in this respect. Many of their products, especially vital rubber from the colonies and dependencies, have been shipped to Red China. Even today, with another desperate battle under way in Korea, representatives of Great Britain at Lake Success continue to take the position that the time has not arrived for an embargo.

How much longer must Americans wait before the lives of American men are put above foreign dollars? From the beginning the United States has sought—although bumblingly at first—to keep potential war materials from falling into the hands of the Peiping government. Because there is easy money in trade of this kind, restrictions on shipments have not been completely effective. But at least the effort has been made.

If Britain and other nations intend to persist in their refusal to send more than token forces to Korea, Washington should serve notice on them to refrain from doing business with the Reds, with an emphatic "or else" added to the message.

SPORTS FOR STUDENTS

New York City's Board of Higher Education, after an investigation of intercollegiate sports at the municipal colleges, has issued a new and praiseworthy code of athletic conduct for those four institutions—City College, Brooklyn, Hunter and Queens.

De-emphasis is the purpose. The four city schools are forbidden to play basketball at Madison Square Garden or at any other commercially operated arena. No more "recruitment" of athletes with special scholarships or preferential treatment. No more "outside" athletics for college players, such as summer basketball at resort hotels. Emphasis is to be on sports for all the students rather than a few.

The rulings coincided significantly with bribery indictments filed against 12 former basketball players of City College, Long Island University and New York University. In all, the city-wide basketball scandal has resulted in the arrest of 18 metropolitan college players.

Three other New York colleges will continue to play in the Garden—NYU and Manhattan, both of which had players involved in the scandal, and St. John's, which did not. Similarly, to support less lucrative sports and to protect enormous investments in athletic plant and equipment, many major colleges throughout the country will continue to rely on bigtime football with all its evils of subsidization and over-emphasis.

Since each of the municipal colleges operates on a comparatively modest athletic scale, it may be argued that the Board of Higher Education's rulings were easy to make. That is not the point. Here is a case where educational authorities have acted upon a compelling need—that of returning college sports to the students.

CIVILIZATION WILL NOT DIE

The pessimists always has his innings during strained times. People listen to the gloomy ones when war and strife threaten, and sometimes it looks as if the pessimists have a strong case. But there have always been doubters and fearful people, and they have been forecasting the end of the world and of civilization since man has been able to communicate with his fellows by the use of words.

In our country the pessimists made an early start. Scarcely had the ships commanded by Columbus passed from sight of land when the pessimists decided that the venture was going to end in disaster.

The colonists battled against the Indians, the weather, hunger and pessimism. Washington at Valley Forge had to cope with the faint-hearted who were certain that he would fail.

Many times during the War Between the States Lincoln heard the murmur of the frightened who wanted to let the Union dissolve because it was inevitable that it would fail and there was no further sense in fighting.

When a man sets out on an adventure, or decides to build upon a dream, the chances for success always look slim to the people without faith or vision. Yet men have always lighted the darkest hours of history with the brightness of their deeds. The world will not die, nor will civilization. Only that which is no longer strong and useful ever dies in the world of ideas. No civilization or idea can die as long as one man still believes in it enough to build on it and to defend it.

Prehistoric man, we're told, lived only 18 years. How come he escaped the sabre-toothed tiger that long?

The new 200-inch Mount Palomar telescope, we're told, has spotted clusters of stars the light from which has been on its way a billion years. Well, better late than never, we always say.

In View Of News Of The World

By J. C. OESTREICHER, INS Foreign Director

Middle East Trouble Spot

Gen. Douglas MacArthur's dramatic appearances before the Senate armed service committee has riveted world attention on the current situation in Korea and its possible outcome.

But Trygve Lie, secretary-general of the United Nations, on his return from a four-week visit to Europe and the Middle East, called for attention to another major trouble spot and his warning was emphasized by continued fighting between Israeli and Arab troops along the Syrian border.

Middle East as Whole

Lie was referring to Middle East as a whole. He said that the world can never feel secure until a real and lasting peace is established in that section of the world—the crossroads between east and west, militarily important and hotbed of racialism. It is one place where religious and racial feelings would play a tremendous role in any spreading hostilities. It holds the spark of a "holy war" that could convulse the world.

On his trip to the Middle East, Lie could see very easily that whatever peace prevails is at best an uneasy truce.

The Arab nations themselves have differences among themselves but they remain united in the belief that they have been exploited by the Israelis with foreign backing and the possibility of a war of revenge cannot be ruled out for the present at least.

Kernel of Problem

The kernel of the problem at the moment is essentially an economic and humanitarian one.

It concerns the plight of thousands of Arab refugees from areas now controlled by the Israelis. The gaunt, poverty-stricken people, accompanied by droves of starving children, pulled out lock, stock and barrel rather than accept an invitation from Tel Aviv to take Israeli citizenship and remain in peace.

They have flowed into Lebanon, Syria and other Arab states which are just able to support their own populations. Assistance is given by many groups, including the United Nations, but political leaders feel it is insufficient and predict catastrophe unless something more is done.

Stressed Refugee Question

Lie purposely stressed the refugee question just as he did the entire Middle Eastern problem.

At the present time, the situation is complicated by two vitally important matters.

One is the nationalization of Iranian oil.

The other is Egypt's announced determination to cancel her treaty with Great Britain that provides for British troops at Alexandria and Suez and a joint rule in the Anglo-Egyptian Sudan.

On both issues, Great Britain has taken a firm stand.

She refuses to concede that the oil nationalization, even though approved by the Iranian Parliament and sanctioned by Shah Riza Mohammed Pahlavi, brings an end to her enormous share in the Iranian oil output under a contract valid until 1996.

Similarly, Britain scorns the Egyptian announcement of plans for unilateral action in abrogating the Suez treaty and merely has chosen to warn King Farouk and his government that any such action would be a breach of treaty.

One Man's Opinion

By Walter Kiernan

Congress continues to be well informed about the conduct of the war in Korea. Mr. Truman briefs the Democratic leaders once a week at the White House and the Republicans read the newspapers every day in the barbershop.

It has been suggested that the Republican leaders ought to be there when the captain meets with his generals, but you let a Republican in the White House once and he gets that old misty look in his eyes.

On the second visit he starts figuring how he would rearrange the furniture and by the third he's figuring how he would rearrange the cabinet.

Anyway, it isn't important that the Republicans be invited to these briefings. This is the third war the Democrats have handled in modern times and they have experience on their side.

The Republicans have to go all the way back to Lincoln to find a war president. In fact they have to go almost all the way back to Lincoln to find a Republican president.

I think this is the day the chiefs of staff go to the White House for another non-partisan briefing of the Democrats. Watch the news columns for late bulletins from General Sam Rayburn.

They Say

WASHINGTON—General MacArthur: "We have plenty of allies, but a number of them do not contribute in the same generous and noble way in which we do."

LONDON—British Foreign Secretary Morrison, asked how long he thought the cold war will continue: "It may go on for five, ten or 15 years. It may break out into something worse."

TOKYO—Lieut. Gen. Matthew Ridgway: "I have complete confidence that whatever the communists do they will get more than they reason for."

NEW YORK—U. S. Ambassador to Greece John A. Puerifoy: "The people of Greece have a terrific spirit. There is no doubt in my mind of what they would do if they were attacked."

Gen. Douglas MacArthur's dramatic appearances before the Senate armed service committee has riveted world attention on the current situation in Korea and its possible outcome.

But Trygve Lie, secretary-general of the United Nations, on his return from a four-week visit to Europe and the Middle East, called for attention to another major trouble spot and his warning was emphasized by continued fighting between Israeli and Arab troops along the Syrian border.

Lie was referring to Middle East as a whole. He said that the world can never feel secure until a real and lasting peace is established in that section of the world—the crossroads between east and west, militarily important and hotbed of racialism. It is one place where religious and racial feelings would play a tremendous role in any spreading hostilities. It holds the spark of a "holy war" that could convulse the world.

THE RAMPARTS WE WATCH

Washington Calling

(By MARQUIS CHILDS)

Need Of Senate Is Seen

WASHINGTON, May 7.—Proclamations are beginning to shower down from high Republican places heralding General MacArthur as the party's nominee for 1952. The most sweeping proclamation has come from Colonel McCormick of the Chicago Tribune, who says that the ticket of MacArthur for President and Senator Taft for vice president will be the strongest in his lifetime.

Since his return General MacArthur has several times said that he wanted no political office. If he were to run for president and be elected, he would be 73 years old shortly after he took the oath of office.

In his speech to Congress, the General spoke of being in the "fading twilight" of his life. This may be one reason he has insisted that he will not seek public office. The strain of a presidential campaign however limited in scope, to say nothing of the physical burdens of the office of the presidency, would intimidate a much younger man.

Could Go To Senate There is, however, an office in which the nation could have the benefit of MacArthur's experience and wisdom and yet the burden of the position would not be intolerable. The voters of Wisconsin could send General MacArthur to the Senate next year and from that forum he could express himself as and when he chose. On the armed services committee his counsel would be invaluable in shaping legislation and approving appropriations.

Senator Joseph McCarthy's term expires next year and most observers are agreed that he can be re-elected if he chooses to be. But perhaps as one of the most ardent admirers of MacArthur, he would be willing to stand aside in order to give the General a fitting place in the national scene.

Something more than MacArthur's own future is involved here. That is the need to raise the level of the Senate. The founding fathers conceived it as a forum in which men of mature years and wisdom would deliberate in a calm atmosphere on the larger problems confronting the nation.

Elder Statesmen? Senators, in other words, were to be elder statesmen rather than back scratching—and back biting—politicians jockeying for immediate gains for party and for individual states. Few will dispute that the Senate today has moved a long way from the ideal of the men who framed the constitution.

Repeated efforts have been made beginning in the 78th Congress to get a bill passed that would automatically give all former presidents of the United States the privilege of the Senate floor with the right to speak on pending legislation. They would

Great Game Of Politics

By FRANK R. KENT

Why Is It A Tribute?

WASHINGTON, May 7.

The appointment of Mr. Blair Moody, Washington correspondent of the Detroit News, as United States Senator to succeed the late Arthur Vandenberg did not quite set a precedent, as was proclaimed. At least one "working newspaper man"—former Senator Joe Ball, of Minnesota—was previously elected to the Senate. Mr. Harding, of course, was the publisher of an Ohio newspaper when he became senator. Mr. Vandenberg published a Grand Rapids (Mich.) paper and Senator Byrd owns two newspapers in Virginia.

But publishers, editors and columnists are not generally regarded here as "working newspaper men." Working newspaper men generally mean reporters, and Mr. Moody unquestionably was the first of the Washington "working press" to enter the Senate. Certainly, he was a good newspaper man and he is a good fellow. Also, unless his known trend toward the CIO, New Deal, Fair Deal and left wing grows too pronounced, he ought to make a good senator. That does not, however, explain the extraordinary reaction of the "corps of correspondents" to his selection nor the considerable editorial comment in the country.

With some notable exceptions the views of the correspondents was that this constituted a "great tribute to their profession." Although Governor Williams of Michigan is a recognized Democratic politician and a close friend of the bumptious CIO's Mr. Walter Reuther, it was curiously held by some that the Moody appointment was so high an honor to newspaper men that it not only should wipe out all the sins the appointing power had committed in the past and any he may commit in the future but also entitled him to the gratitude of every "working newspaper man" everywhere. To such an extent did this strange feeling exist that the "working newspaper men" jammed the Senate press gallery when Senator Moody was sworn in and, through the gracious permission of that rugged old Kentucky politician, Mr. Alben Barkley, lustily cheered their former colleague as he took his seat.

Well, it is pleasant for Mr. Moody to know that the "working press" is glad he got what he wanted. Aside from that, however, the question arises as to why the "working press" should feel so highly complimented? What is there about the United States Senate to inspire reverence and admiration among the "working newspapermen" who know the individual senators better than any one else? It is not easy to answer. The job of the working newspaper press in Washington is to observe and report on the members of the Senate day in and day out. Because of the character and requirements of their work the inevitable tendency of working newspaper men is to exalt the first-class members of the Senate. But they cannot be completely realistic about the second, third, fourth and fifth class members.

In other words, such is the newspaper business that it is almost impossible to get a clear picture of the individual senators from the "working press." For a variety of reasons, few working newspaper men can say exactly what they think about the senators of whom they write. What the first-class working newspaper man really thinks of those about whom he writes is not often complimentary. Of course, there are second, third, fourth and fifth class newspaper men just as there are second, third, fourth and fifth class senators. Nevertheless, long and close observation of both groups inclines one to believe that the average "working newspaper man" is better bred, has more brains and more character than the average senator. Also that, as a body, the working press is superior mentally and spiritually to Congress, has higher ethical standards and sounder ideas.

Largely, this is true because of the inherent difference between journalism and politics, which would take more space than is here available to define. For example, to stick in their business and hold their jobs "working newspaper men" (again with some notable exceptions) do not have to practice the hypocrisy and insincerity without which so many senators could not politically survive. Nor do working newspaper men have to be subservient to the pressure groups of which so many politicians live in constant fear. Newspapersmen are more free and in their business it is far easier to retain self-respect.

There is so much data to sustain this contention that it is hard to understand why newspaper men permit politicians to pose as superior or patronizingly push them into a position of inferiority, as indicated by the pompous tendency to refer to them as "the newspaper boys." And why do they permit senators to get away with the idea that when they give newspaper men an interview or a piece of news or even talk to them they are conferring a favor? The idea is absurd. The reverse is true. A far sounder idea was expressed many years ago by the late Samuel G. Blythe when he said that "the only way for a good newspaperman to look at a politician is down." Considering all the facts the notion that the election of a working newspaper man to the Senate is a tribute to all other working newspapermen is extremely silly.

Looking At Life

By ERICH BRANDEIS

A couple of weeks ago a reader sent me a newspaper clipping. It contained the story of how President Truman was booed when he entered his box at the opening of the Washington baseball season.

In red pencil my correspondent had underlined this sentence: "The President shrugged off the boos with a grin, ate a hot dog, drank hot chocolate and appeared to be enjoying himself."

"For shame on Truman," the reader annotated the clipping, "I hope you'll give him hell."

Swell, I said to myself. There certainly is a theme for a good hell-raising column. And I sat down to write that column and to join in the general chorus of criticism and denunciation.

But it just so happened that on my desk was the paper telling of the reception General MacArthur had gotten in New York.

I had seen that reception on television. I had been thrilled the day before by MacArthur's speech before Congress.

When the General said goodbye to his Washington audience, I saw tears in the eyes of many hard-boiled law-makers. I saw tears in the eyes of my wife, who was watching the proceedings with me.

And I am not ashamed to admit that there were tears in my own eyes.

Then the next day we watched that tumultuous New York reception.

We saw the crippled, the blind, the old soldiers and sailors paying homage to their commander, and

we saw him paying homage to them.

We saw the dignity of the General, the sweetness of his wife, the manliness of their thirteen-year-old boy.

We noticed the love and devotion of the General for that wife and that boy.

We thrilled to the song "God Bless America," sung by the policemen and firemen's Glee club.

Millions and millions of people cheered in this man, millions shouted themselves hoarse in adoration. And do you know why? Not because he was a returned hero. Not because they thought that (Continued on Next Page)

Fellowship Luncheon At Oak Grove Church

May Fellowship luncheon was held in the Oak Grove U.P. church Friday with representatives of the several churches of the community in attendance.

Mrs. Richard Dean, of the Mt. Hermon church, was chairman of the arrangements committee. Following a tasty luncheon prepared by the ladies of the hostess church an interesting program was presented, Mrs. Dean in charge.

Mrs. M. H. Hall of Portersville gave several readings and two solos were given by Mrs. Ferguson, accompanied by Mrs. Florence Shaffer. "Women at Work" was the theme of the program. Mrs. Richard Dean introduced Mrs. Chester Dean of the First Baptist church in New Castle. The latter gave a very interesting and entertaining talk entitled "The White Witch Doctor." It was the story of the life and work of a missionary in the African jungles. Mrs. B. W. Kossack closed the program with prayer.

Election of officers was held during a short business meeting with the following results: president, Mrs. B. W. Kossack of Princeton Presbyterian church; vice-president, Mrs. Audley McClymonds of the Oak Grove U.P. church; secretary, Miss Mary Jane Wilson of Rose Point Reformed Presbyterian church, and treasurer, Mrs. Ruth McCracken of Mt. Hermon Presbyterian church. The meeting was closed by the group singing "God Be with You 'Till We Meet Again." The organization will direct plans for a World Day of Prayer to be held the first Friday in Lent and the May Fellowship luncheon the first Friday in May, 1952.

TARZAN COMES DOWN

BOSTON—Eleven-year-old Joseph P. Ward Jr., was up a tree. He went up to play "Tarzan." He stayed up when his leg got caught in the branches. Neighbors couldn't get him down. Neither could police. Firemen finally did the trick with crowbars and a can of oil.

unduly high. So might some of the influential businessmen of their respective school communities. Too, might the leaders of the P.T.A. Indeed, a good topic for discussion at a P.T.A. meeting around this time of year would be the high cost of commencement. Perhaps it could be by a panel of students, teachers and parents.

The persons who could do most to influence commencement committees of students to exercise good sense in plans which entail family expenditure of money are parents to whom such expenditures are not great hardship—the well-to-do parents of the school community. These parents hardly would wish their own children to enjoy excessive luxuries in connection with commencement when having such would prove a serious financial hardship to many or most other parents of their school community.

Pomp And Splendor

Thinking parents and students might help satisfy the "patriotic" urge of students by inducing the graduating class to spend less on pomp and splendor for themselves at commencement and more on contributions for scholarships, especially for the boys on returning from the service to resume their education.

Parents of younger children might prepare their children for facing these problems better if they trained them in frugality now and in wise use of money.

a little man had done injustice to a giant.

Not because they had been given a few hours off from work and wanted to celebrate.

They cheered him because in him they saw AMERICA.

In him they not only saw and heard but once again FELT everything that is good and fine and noble in our life.

In him they FELT the culmination of everything that—though dimmed and blurred for the time being—America stands for and always will stand for.

There was no politics in that reception. These millions who paid honor to him were not Republicans or Democrats. They were AMERICANS.

So I shall not write about Mr. Truman's enjoyments of the boos. There is an old saying that water rolls off a duck's back.

But why write about ducks

when one has the glorious privilege to write about AMERICA?

Horst To Head 1951 National Farm Safety Week Drive

HARRISBURG, May 7.—(INS)—State Agriculture Secretary Miles Horst accepted chairmanship of the 1951 National Farm Safety Week campaign in Pennsylvania for the eighth consecutive year.

The statewide observance will take place during the week starting July 22.

Agriculture has more accidental work deaths than any other major industry in the United States," Horst said.

"It is necessary that farm people be made safety conscious 52 weeks of the year in order to reduce losses from death and injury, particularly in time of war emergency when we so greatly need every available farm worker."

Charge Butler Man Battled Policemen

Robert Brown, of Butler, who is estranged, according to police from his wife, went to her home, East Long avenue, Saturday night, broke windows, allegedly abused Mrs. Brown and when Policemen Rozzi and Birt arrived, battled them.

They had to use a mace, they report, and six stitches were put in his head by a Jameson Memorial hospital surgeon.

He was charged by police with intoxication and resisting officers before Alderman J. C. Kennedy.

KNIGHTS TEMPLAR TO MEET

PITTSBURGH, May 7.—(INS)—The 98th annual convocation of the Grand Commandery of the Knights Templar of Pennsylvania will meet in Pittsburgh May 20-23.

More than 3,000 sir knights from all parts of Pennsylvania are expected to attend the sessions.

Today's Fashion Flash

By PHYLLIS BATTELLE

NEW YORK, May 7.—(INS)—Miraculous "dacron" (or "fiber V") was introduced to the fashion world today—as the most durable, dousable, dependable fabric on record.

The spectacular new material, developed by Du Pont and scheduled for ready-to-wear production in 1953, will make it possible for a man to go swimming in his Sunday suit, if he cares to, and never need a press.

With a dacron suit or dress, a man or woman will always look fresh. The fabric doesn't crease, shrink or stretch, never puckers or bags. Tests prove that a trim-looking dacron business suit had well creased slacks and an immaculate jacket—after being plunged twice in a swimming pool, and worn 67 days in a row.

Known mysteriously as a "polyester fiber," Dacron will be ready within two years for manufacture into all forms of men's and women's ready-to-wear, from socks to hats, and into window curtains and other forms of interior decoration.

"SOFT" SHOE ROUTINE

CHICAGO, May 7.—(INS)—Edwin Rogers had a pretty soft shoe routine figured out but the flat-foots finally got him.

The 22-year-old Chicagoan, an errand boy at the Florsheim Shoe Co., admitted yesterday that he "simply pasted labels on cartons of shoes at the plant" and had them delivered to his home.

Company officials called in police when one of the packages accidentally was returned to the plant. Officers found 50 pairs of shoes in Rogers' home and he admitted selling another 450 pairs to acquaintances.

STATE NAMED

The Vatican City state was named February 11, 1929.

STATE FARMERS LEAD

HARRISBURG, May 7.—(INS)—Pennsylvania farmers topped the nation last year in cash income from sale of eggs and chickens.

Eggs netted \$115,033,000 in 1950, the State Agriculture Department reported today, while chickens yielded \$33,397,000.

The department noted that when income from all four major divisions of the poultry industry are combined, Pennsylvania's total of \$172,589,000 places the state second only to California.

ARMED FORCES DAY

HARRISBURG, May 7.—(INS)—Next Saturday has been proclaimed "Armed Forces Day" in Pennsylvania.

Gov. John S. Fine called upon the National Guard and other organizations to participate in ceremonies "expressive of our recognition of the courage, gallantry and uncompromising devotion to duty displayed by members of the armed forces."

BREAK CHURCH WINDOWS

Rev. Alexander. Bethel A.M.E. church, reported to police May 6 he had found several windows had been broken by stones and the chandelier was also damaged.

'Boys On Parade' Program Received Well At Y.M.C.A.

"Boys On Parade," a program of exhibition presented by the boys of the Y.M.C.A. was received at the Y Friday night by an enthusiastic audience of approximately 250.

R. L. Meermans, general secretary, opened the program with a welcome speech, and Dave Gatrall, program secretary, served as master of ceremonies.

Harold Pears, physical director, then supervised the respective exhibitions which included: demonstrations on the rings, horizontal bar, the parallel bar, and weight lifting; tumbling and gymnastics by the mid-level, cadet, and junior classes; and drills and demonstrations by the leaders corps.

The finale, constituted men in silver paint, depicting sports for the various calendar months and which included football, soccer, basketball, wrestling and boxing, gymnastics, track, softball, and camping.

City To Provide Retaining Fee

Members of city council met in special session called by Mayor John F. Haven Saturday morning and voted approval of the placing of a retaining fee of \$250, to Mrs. M. J. Scanlon, executor, for land to be acquired by both the city and county adjacent to Montgomery avenue, for a new P.R.R. station. They county will also put up \$250, making the retaining fee \$500, for the land which is to cost \$10,000.

The land fronts on Montgomery avenue and runs as far west as the P. Y. & A. railroad property.

DATE ETIQUETTE

"When a man calls at a girl's house to take her out, it is bad manners for her to step out the door to meet him if she is ready to go, or should she invite him in? Also, when they enter a place where her friends are gathered and he has never met any of them before, should she say, when introducing him, 'Miss Smith—Mr. Green' or 'Mr. Green—Miss Smith'?"

Answer: She should let him come in to meet her family, rather than go out immediately at his approach to her front door. He should be introduced to her woman friends, thus: "Miss Green—Mr. Smith" not "Mr. Smith—Miss Green."

Question: Is it permissible to have 2 matrons-of-honor at a wedding? In order to prevent hurt feelings, I am having my two best friends share this honor. In such a case, who acts as witness?

Answer: While it is usual to have only 2 witnesses at a wedding—the maid or matron-of-honor and the best man, you may have two matrons-of-honor for the reason stated. Both should walk together immediately preceding you going up the aisle and both stand to your left at the ceremony. Actually only one may perform the functions of the matron-of-honor, acting as a witness, holding your flowers during the ring-placing in the ceremony and adjusting your train and veil, etc. The other girl must, therefore, be matron-of-honor in name only.

Question: Is it necessary for all those who receive announcements to send a gift to the bride?

Answer: It is entirely unnecessary to do so. Only those who receive an invitation to both the ceremony and the reception are under any obligation to send a gift.

THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

Mounting Flowers

Not long ago The Family Scrapbook explained how collections of flowers and plants could be pressed and dried. Once they are so prepared, naturally, the young collector will want to put them in his collection notebook.

Often, a lot of "breakage" takes place when the plants are transferred. Of the various methods, the following seems to work best: Mix glue with one part vinegar and smear rather thickly on a piece of glass. Then, carefully picking up the dried specimen from the press, lay it on the glue-covered glass and press it down gently until the back is covered with the glue.

Now transfer it to the notebook, cover it with a piece of paper and press gently so that the whole surface is glued onto the page of the notebook.

Campers Enjoy Rally At Y.W.C.A.

Y.W.C.A. campers enjoyed a camp rally on a recent evening in the auditorium of the Y.W. Tables were set up similar to the camp itself. Each girl brought sandwiches and the balance of the supper was furnished by the members of the camp committee.

Miss Shirley Webber who will be assistant camp director, acted as mistress of ceremonies. Camp songs were sung, table games played and several short skits put on by the campers.

The movie taken at Camp East Brook last summer was shown to the group and very much enjoyed. Miss Catherine Tommelleo who was camp nurse last year was a special guest. Eighty mothers and daughters attended. A good time with lots of fun was featured at this rally, and a package of "swizzles," a candy favorite, was a treat at each place.

New Paint Cleaner Retains Gloss

Have you ever cleaned walls or woodwork when the paint literally disappeared before your eyes? Perhaps your white woodwork formerly had a glorious gloss but after cleaning became flat and dull. Now you can retain the beauty of painted surfaces with the new C33 Concentrate. It removes the dirt but leaves the paint when used as directed. C33 is also ideal for cleaning venetian blinds, linoleum, refrigerators and tile. This new product now available at

CHEWTON

SCHOOL OPEN HOUSE

Many parents and friends of the pupils of the Chewton school enjoyed the "open house" held by the school recently. The work of the pupils was on display and the parents could see just what the youngsters had been doing the past six weeks. The rooms were decorated with lovely spring flowers and pictures.

URGED TO WARN CHILDREN

Parents are urged to warn the children who use the highways on the way to and from school, since the trucks from the limestone quarry are working again and many trucks are running. The drivers have reported that children have been darting out in front of them to see if they can stop. Heavy trucks are hard to stop and if the practice is not stopped some child may be seriously hurt. The truck drivers have been warned by the constable, James Badger, that they must

SPECIAL BATTERY RECHARGE 25¢

Around Hollywood

By JAMES PADGITT

(International News Service Staff Correspondent)

HOLLYWOOD, May 7—When it comes to getting around, there is no screen queen in quite the same class as Margaret Sheridan. The lady starts in where others leave off.

Hollywood high-lifers, seeking surcease from the swimming pools and sunbathing in the theaters and bistros of that great city.

Maggie, however, looks on New York as just a jumping off place for her. Her idea of a little vacation is a flight around the world. "And why not?" she asks reasonably. "You can do it in a week—or six days, if you are in a hurry."

Likes To Fly
Maggie does not travel by scheduled airline. Her husband is Captain Bill Pattison, a pilot for the Flying Tigers. When Maggie is not busy at RKO-radio studio she flies with him as a stewardess. Honolulu, Mexico City or Havana are weekend deals for her. A longer jaunt means Bangkok, Cairo or Rome.

While her colleagues in Hollywood are acting out adventures, Maggie is living them.
"Like one flight we made to Tokyo," she recalls. "That was really exciting. It was last June. We had been out of touch with the war news, and as we flew over Okinawa we heard the control tower at Tokyo ordering the first takeoffs for the bombing of Korea. We knew then what the headlines would be the next day."

In "The Thing," her current Maggie plays a lab technician stationed near the North Pole. She knows the neighborhood well.
"I've flown all over Alaska and Iceland," she says. "On one trip the weather got so rough we had to use scotch tape to fasten down our gin rummy playoffs."

Not Afraid
Maggie's curiosity and sense of adventure have taken her into

places where the bravest souls have hesitated. At her determined insistence, her husband and five male friends were persuaded to accompany her to a Bangkok opium den against their own judgment.

"I just wanted to see the place," she says. "After all, how many times in this life does one get a chance to go through an opium den? I'm still glad I went, although I certainly didn't enjoy it. I'd never admit that to my husband though. Heaven knows he warned me."

Margaret's contract is shared by RKO and Howard Hawks, the producer of "The Thing." She wants the part of the Indian girl in Hawks' next picture, "The Big Sky," but Hawks does not think she is the type.

Consequently Margaret is hiring a cameraman this weekend to film her in different Redskin getups. She will show the results to Hawks and then ask him, "how's about it?"

Veterans Council Will Meet Tonight

New Castle Veterans Council will meet on Monday, May 7, in the American Legion home, North Jefferson street, at 9 p. m. Commander Edward DeCarbo will be in charge.

Final plans will be made for the Memorial Day services with Earl Moffett as chairman. Armed Forces day program of the Veterans' Council will also be arranged and planned at this meeting.

All veterans' organizations will be present at the meeting.

County 4-H Clubs To Have Training Program Thursday

One of the features of this week's 4-H club schedule, will be a county-wide Officers Training meeting, which will take place in East Brook High school, Thursday evening, at 7:30 o'clock. Training will be given in the duties of the various club officers.

Other meetings scheduled during the week are as follows:
Monday—Scott Township Agriculture club, home of Charles Dickinson, 7:30 p. m.; Mahoning Home Economics club, 4 p. m.; Tent Hall school, health meeting; Hickory Home Economics club, health meeting, 7 p. m., home of Carol West.

Tuesday—Neshannock Clothing club, 4 p. m., home of Jane Bees, organization and health meeting.

Wednesday—Neshannock Fun to Cook club, 4 p. m., home of Shirley Weaver; Princeton Home Economics club, 7 p. m., home of Dixie Hobel, demonstration of buttons, sock darning, and patching.

Saturday—New Bedford Home Economics club, 9:30 a. m., New Bedford U. P. church, demonstration of making cakes and yeast bread.

FALSE TEETH

That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Give Your Child The BIG 8 in WONDER BREAD!

Let The 8 Elements in Wonder Bread Help Your Child Grow Bigger and Stronger 8 Ways!

Note How Amazing Wonder Bread Compares With Meat, Milk, and Fish 8 Ways (as shown at right)

Is your child developing, mentally and physically, at the rate he or she should?

A recent survey of 9,543 children disclosed the shocking fact that 4 out of 5 are not well fed according to the standards of The National Research Council.

These common foods supply ALL the essential food elements your child needs each day: Meat, bread, milk, eggs, fruit, yellow and green-leaved vegetables.

Let your child have the "BIG 8" in Wonder Bread.

Good for Growth and Energy

As shown in the chart, Wonder Bread is very valuable—because it helps your child grow bigger and stronger 8 ways.

Growing children need TWICE the protein per pound of body weight as grownups.

Penny for penny, Wonder Bread gives your child more body-building protein than the average of meat, milk, fish and eggs.

Growing children require energy for work and play.

Wonder Bread is a substantial energy food. More quickly converted into energy than fat. And better than fat for child growth.

Helps Build Stronger, Bigger Bodies 8 Ways

The chart shows the 8 body and brain-building properties of Wonder Bread.

Serve Wonder Bread with meat, fish, eggs, milk, fruit and both yellow and green-leaved vegetables in a balanced diet to supply ALL the food elements your child must have for healthy growth.

8 ounces of Wonder Bread for a growing child cost less than a dime a day. You can afford Wonder Bread for your child.

Doubly Fresh

Children love Wonder Bread. Plain or toasted. Because Wonder Bread is doubly fresh—fresh when you buy it; fresh when you eat it. Because slow-baked—13% longer than many ordinary kinds for lasting freshness.

Get economical Wonder Bread fresh from your grocer today—you'll be glad you did.

BOLOTIN'S

City Council Parent-Teachers' Business Meeting

Members of the City Council of Parents and Teachers met recently at the New Castle senior high school, with Mrs. James Uber reading the P.T.A. prayer.

It was disclosed that the leadership training school will be held at Slippery Rock this summer, and each unit is urged to send at least the president and one delegate. Tentative plans include training both in parent education and parent-teacher education.

Annual reports were heard by the committee chairmen as follows: membership, Mrs. H. F. Freeman; budget, David Gatrell; publications and Founder's Day, Miss Margaret Lowery; and by-laws, Orlando Lucidore. Charters were given to Mahoning, Lincoln-Garfield, Thaddeus Stevens, Oak Street and Rose Avenue. Gold Seal awards were given to Lincoln-Garfield, Pollock and Rose Avenue.

A report was read from Dr. Frank Burton regarding the health and dental examinations in the schools. It was noted that there are fewer correctable defects found, indicating that parents are doing something about the defects. It has been recommended by the school board that Dr. Burton secure a teacher for children with hearing and speech difficulties.

The unit presidents making reports for the year were: Mahoning, Mrs. Joe Zumpella; Pollock, Orlando Lucidore; Oak Street, Mrs. Gerald Book; Rose Avenue, Mrs. Al

Jones; and Thaddeus Stevens, Mrs. James Uber.

Mrs. Samuel Rashid, Council president, thanked the principals for their help and guidance, the committees, officers, and all unit presidents and various representatives for their complete cooperation.

The annual election of officers was held, with the results as follows: president, Mrs. Samuel Rashid; vice-president, Joseph Campbell; secretary, Mrs. Joe Zumpella; and treasurer, Mrs. H. M. White. Mrs. John Susko installed the new officers.

The remainder of the evening was devoted to a question and answer discussion period by Lauren Thayer regarding the school survey.

Will Pay Tribute To Mother's Day Founder Sunday

PHILADELPHIA, May 7.—(INS)—American Legion bugles will sound softly over the grave of Anna Jarvis this Sunday (May 13) as millions throughout the world pause in tribute to Mother's Day which she founded and struggled to preserve forever.

The speeches and the bare-headed crowds at the cemetery will be a tribute, too, to elderly Miss Maude O. Hickman whose death bed promise to Miss Jarvis has

kept alive the observance of Mother's Day.

When the founder died in poverty and blindness at a West Chester, Pa., sanatorium in 1948, Miss Hickman dedicated her life to carrying out the wishes of "one of God's angels."

Each year she maintains the tradition of mailing letters to the nation's governors urging them to proclaim the second Sunday of May as a tribute to mothers.

This year, as in the years since Miss Jarvis began the custom in 1908, the response has been overwhelming favorable from the states' chief executives.

Man Burns To Death In Cell Of Jail At Belle Vernon

BELLE VERNON, Pa., May 7.—(INS)—The father of five children—jailed on a disorderly conduct charge—burned to death yesterday during a fire which police claim he started in the Belle Vernon four-cell block of the borough building.

Volunteer firemen found the body of James Howe, 50, after they put out the fire. He was an unemployed glass worker who was estranged from his wife and had been jailed following his arrest after a night-long argument with his wife, Mrs. Noeline Howe.

Damage was estimated at between \$3,000 and \$5,000.

Estimate 50 Dead In Landslide In Korea Wonsan Area

TOKYO, May 7.—(INS)—An estimated 50 men engaged in repairing Communist communication lines at Wonsan were buried in a landslide Sunday as gunfire from United Nations warships jarred loose a mass of earth.

The Navy reported today that the man-made landslide occurred near a tunnel entrance on the south shore of the east coast North Korean harbor.

With Fifth Air Force night intruder planes serving as spotters, the destroyer USS Craig hammered round about round of high explosives into rail and highway bridges south of the besieged city.

Wilmington Twp. Caucus May 8

Wilmington township Republicans will hold a caucus in the Neshannock Church school Tuesday night, May 8, at 8 o'clock.

Three school directors and two road supervisors will be nominated for the primary election on July 24.

The caucus has been called by County Committeemen Rankin Johnson, Joseph J. Francis and Mrs. W. D. Lewis. It is open to all Republican voters of Wilmington township.

Cub Pack Number 3 Will Present Circus

In accordance with the suggested national cubbing theme, "Circus," Cub Pack No. 3 will present a pack circus May 8 at 7:30 in the First U. P. church.

All 10 dens will participate in presenting circus skits, side shows and exhibits of circus life.

The cubs will be directed in their activity by den mothers, Mrs. A. G. Reynolds, Mrs. Arthur Alexander, Mrs. Elsie Rankin, Mrs. Charles Levine, Mrs. Samuel Perry, Jr., Mrs. Edith Mohler, Mrs. Paul Swift, Mrs. Eleanor Boalick, Mrs. John Boston and Mrs. John Suliot.

There will be awards presented as follows:

The pack program has been planned by Cub Master Dan H. Ryan, Pack Chairman Dr. A. G. Reynolds and Committeemen Leslie Pinney, James Meyers, Stephen Skuba and John Suliot.

Cub Pack No. 3 is sponsored by the Men's club of the First U. P. church. The institutional chairman is Rev. Robert Mayo.

Gaston Post To Meet Tuesday Eve

Tuesday evening's meeting of the Perry S. Gaston post, American Legion, at 8 o'clock in the Legion Home, will be a most important one. Commander Manning Weller announced today.

A vote will be taken on the matter of changing the method of electing officers, and in addition, there will be a discussion of plans for Armed Forces Day, Memorial Day, and other matters.

Maurice Zeigler, new officer in charge of the U. S. Veterans Administration office here, will discuss the new refunds which are coming up on government insurance, and how much each veteran can expect to receive.

FIRST MINT
The first U. S. mint was established on April 2, 1792.

WHY THERE IS A WAITING LIST FOR GAS HEAT and what we're doing about it

Those on our waiting list will receive gas heat in the order and class in which request was made.

Since March 1, 1947, thousands of our customers have placed their names on our waiting list for gas heating. This waiting list is the result of an endeavor by the company to provide for systematic allocation of gas for home heating on the basis of available supplies. This procedure is in accordance with rules and regulations on file with, or orders of the state regulatory commission.

No exceptions can be made in our policy of approving applications for gas heat in the order and class in which requests are filed. This whole situation is brought about from the fact that there just isn't enough gas for home heating for all of our customers who would like to have it.

HERE'S WHY EVERYBODY CAN'T HAVE GAS HEAT IMMEDIATELY

1. Demand for gas heat keeps getting greater and greater because gas is the most modern heating fuel.
2. Gas is the cheapest fuel. While costs of other fuels have soared, the cost of gas has been held at low levels.
3. Most additional supplies of natural gas must be piped from the far Southwest, requiring long pipelines of large size. With the present shortage of steel, this pipe is almost impossible to obtain.

Unrestricted addition of new gas heating installations would, in cold weather, raise the demand for gas above total available supplies. This would jeopardize the welfare of all our customers who depend on gas for cooking, water heating, refrigeration, clothes drying, etc. Our waiting list protects everybody.

Naturally, you want to know what we're doing to solve this problem. The purpose of this report is to tell you as completely as possible.

Thousands of Early Applicants Have Already Been Served

The 9,000 families now on our waiting list are not the same families that were on it when the list was started, but are only those since last fall. We have approved applications as our gas supplies have improved. All the families on our original list, plus many thousands more, have been offered the convenience of gas heat. Today, 85,000 more homes on our lines are heating with gas than there were when our waiting list was started.

Many More Families Will Be Served

We are constantly working to solve the gas supply problem. Since 1946, we have spent over \$50,000,000 on new gas lines and other transmission facilities. Since 1946, we have added more than 300,000,000 cubic feet to our gas deliveries on a zero day. We have already signed contracts for still additional

supplies of gas to be delivered as soon as we can expand our pipelines and other facilities.

Pipe and other materials are the bottleneck. It is a condition over which we have no control.

What are the prospects for "Waiting List Families?"

During the past five years, our gas supplies have improved steadily. We hope to continue this trend. We can't, however, say definitely when any particular family on our waiting list will get gas for heating. We regret our inability to keep up with your desire for gas; however, in fairness to our present heating customers, it is essential that each await his turn. To do otherwise would endanger the supply to all.

We recognize our obligation as a Public Utility to make available to our customers as much gas as they need whenever they need it. We will not rest until we have met this obligation.

The above statements are made on the basis of present information and cannot be guaranteed against possible complications such as Federal restrictions on the use of materials, or other contingencies beyond our control.

WE HAVE SPENT OVER \$50,000,000 TO IMPROVE YOUR GAS SUPPLY! HERE'S HOW—

We have added hundreds of miles of new pipelines to meet the skyrocketing demands for gas—our gas heating customers alone have increased 565% since 1945.

We've built new facilities, expanded existing facilities to move enormously increased quantities of gas to you.

We've drilled hundreds of new wells in our efforts to locate new gas supplies in nearby fields to supplement supplies piped from the far Southwest.

We've increased our vast underground storage from 16 billion cubic feet to over 37 billion cubic feet, an increase of 133%. Gas is pumped into storage in summer, so that we can better meet your demands during cold weather.

We have already budgeted over \$83,000,000 to be spent on additional expansion during the next five years to provide finest possible gas service for our customers.

Gymanfa Ganu Huge Success

Congregational Church Crowded For Event

Of all the 28 gymnanfa ganus held in First Congregational church over the years, the one on Sunday seems to stand out as the best.

From the standpoint of attendance there was no question about it. The church was crowded to the walls, with scores standing for both afternoon and evening sessions.

Singing Magnificent

The congregational singing was magnificent. There was a lift to it, which is not unusual for gymnanfas, but this one seemed to reach new heights. And over it all, a sincerity and joyfulness that made the entire day a delight.

Henry T. Jones was the conductor of the day, with Miss Ann Davies of the Kansas State Teacher college of Emporia, Kas., the musical director. This was the first time a woman had been appointed musical director, but Miss Davies was more than equal to the occasion.

Leslie Marietta, baritone, of Wampum, was the soloist of the gymnanfa and added to the laurels he has won in this county in the past year. Edwin Lewis was the organist of the day, replacing Mrs. John M. Evans, who had been announced but who was unable to be present because of illness.

Session Chairmen

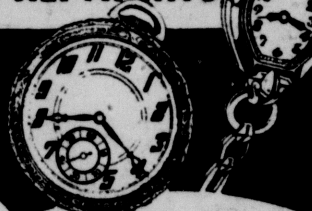

Judge David G. Jenkins of Youngstown, formerly of New Castle, was the chairman of the afternoon session and expressed his appreciation at being present. Dr. Robert F. Galbreath, former president of Westminster college and now pastor of First Presbyterian church, was the chairman of the evening session and spoke during the program.

The afternoon session was opened with the singing of the national anthem, directed by Griff Thomas. Opening evening session he directed "America". Most of the two sessions were devoted to the singing of the old Welsh hymns, which after all is the chief purpose of gymnanfa ganu. Rev. Thomas J. Jones, pastor of First Congregational church, conducted the devotionals of the sessions.

It's the only new-type engine in any "new car"!

Chrysler FirePower

Finest engine
ever put
in an automobile

180 HORSEPOWER

Here you see the central secret of FirePower's unmatched ability... the new Chrysler Hemispherical Combustion Chamber, heart of the finest motor car engine built today. In this dome-topped, clean-walled area, you see the only ideal combustion chamber in a motor car engine today... the only way to develop full combustion, full compression, full work and value from every drop of fuel!

With so many engines claiming newness... how can we call FirePower the only new type engine in any car today? The answer's very simple... and one you ought to know before you invest in a new car.

The fact is that engine improvements and refinements happen every year... but a basically new motor car engine is a very rare thing. And basically new is what FirePower is... the most basic new development since Chrysler introduced high-compression back in 1924!

To get to the heart of the matter, just go to the heart of the engine itself... the combustion chamber where the spark fires the gasoline into the power that drives your car.

Right here Chrysler engineers have now given you something no passenger car has had till now. Here FirePower now brings you a Hemispherical combustion chamber which is the only perfect and ideal combustion chamber in any motor car engine offered today.

The same amount of gasoline delivers you far

more energy when it's in a FirePower cylinder than it could deliver in any other car. And there isn't any way any other type of cylinder can change that basic mechanical fact!

What this means to the man at FirePower's wheel is impossible to tell you till you take that wheel yourself. FirePower's 180 horsepower can outperform any other engine on the road, even on regular grade gas. Its smooth, quiet response to all normal driving needs is something altogether new.

Let's remember, too, that along with FirePower, Chrysler now offers the wondrous road-ease of new Oriflow shock absorbers with more than twice the shock-absorbing power of any others in the world... and the exclusive safety and delight of Hydra-guide power steering* which takes four-fifths of the work out of steering the car!

Yes... your motoring world has this year changed forever... and you can learn exactly how at your Chrysler Dealer's now!

Farm Roundup

Meat Prospects Good For Year

Agriculture Forecasters Report On Outlook

WASHINGTON, May 7.—(INS)—Agriculture researchers have surveyed this year's livestock and meat situation and are saying the prospects for the rest of the year look fairly good.

Considerably more pork, slightly less veal, lamb and mutton than last year are expected in the months ahead.

Meat consumption per person for entire year may be two to three pounds larger than the 145 pounds in 1949.

They say prices of cattle strengthened further but the price of lambs declined in April, following the increases earlier this year.

Hog prices, which rose moderately in January and early February, have lost most of their gains as seasonal marketing increased.

Slaughter of calves and production of veal have been considerably below last year's levels and the government expects the situation to continue. They say a high percentage of calves is still being kept for feeding or for adding to breeding herds.

Despite the drought which has prevailed in the southern great plains and the southwest, livestock there are reported to be in fairly good condition.

Agriculture Secretary Brannan has raised the minimum price support for 1951-crop peanuts. The average support prices for all types will be \$230.56 per ton.

This price will prevail unless the supply position or a higher level of parity at the stop of the crop last year August 1 requires a higher support level.

The announced price represents an increase of \$14.56 per ton over 1950-crop averages.

Brannan announced support prices by types, saying there would be premiums and discounts for varying grades and for damage and foreign material.

To be eligible for the support program, a farmer must not pick or thresh an acreage larger than the one he worked in 1947.

The government's Commodity Credit Corporation has announced prices for its stock of cover crops and hay and pasture seeds.

Officials say the seeds are being offered now so that farmers and dealers can plan for early planting.

Seed for sale at commodity offices includes: Austrian winter wheat, weeping love grass, blue lupine and kobe Lespedeza.

The seed will be sold in cartons, or in warehouse receipt lots, except that large lots may be split when feasible.

West Side P.T.A. Meets At School

West Side P.T.A. members met recently at the school with Mrs. Kenneth Jerry, president, conducting business. The P.T.A. prayer was read by Mrs. Dale Lawson. Mrs. Otha Jackson gave an in-

teresting report on her "String of Pearls" based on the S. W. District conference held recently at the Cathedral. The by-laws were officially adopted by the group.

Delegates elected to City Council were Miss Belle Kyle and Mrs. Joseph Procter. Mrs. Steven Kieckner of the school board gave a report on the proposed school building program. Arthur Can-

ning, instrumental instructor in the elementary schools, had two of his pupils give solos. Sally Hogue entertained on the violin and Jonathan Tucker accompanied her as they played "In A Garden," and a French folk song.

Miss Margaretta Hess, vocal teacher and accompanist, had the following group of sixth grade girls sing "All Through the Night" and "Mother." These include Sally Hogue, Ina Mae Nelson, Linda

Johnston, Myrna Campbell, Judy Jenkins, and Romana McHenry.

Mrs. Chauncey Davis gave a review of the old West Side P.T.A., informing the group that the West Side school was one of the first schools in the city to form a P.T.A.

Mrs. Raymond McHenry sang "Danny Boy" accompanied by Miss Hess. Refreshments were served by the hospitality chairman, Mrs.

Pearl Bodenforfer, with co-chairmen, Mrs. Louise Johnston, Mrs. Lillian McHenry, and Mrs. Elma Schweikert. Miss Betty Brown was presented with a lovely corsage in behalf of the sixth grade mothers. Miss Sara Field's and Miss Hess' home rooms will be given a treat for having the most parents present at the meeting.

Comb Relief Roles For Those Who Can Work

HARRISBURG, May 7.—(INS)—County relief administrators were ordered by the state public assistance department to comb their rolls for persons capable of making the most of expanding job opportunities.

A directive signed by Mrs. Eleanor G. Evans, DPA secretary, ordered county officials to pay particular attention to mothers, partially employable persons and older children.

She told subordinates that a "positive emphasis will lead to more and more instances of self support."

Mothers with young children, she pointed out, are not required to seek employment as a condition of eligibility for state aid unless care is provided by other persons.

"This means," Mrs. Evans said, "that when persons other than the mother are caring for the children, that mother is required to take employment."

Must Seek Work
The responsibility of the relief program, said Mrs. Evans, is not to provide aid for those capable of earning money.

In addition, she asserted, there must be evidence that "persons who can work are seeking, accepting and retaining available employment."

The only exceptions, Mrs. Evans emphasized, are those over 65 years of age, those needed at home and children attending school.

"Don't forget," she told the county officials, "that older children are expected to take jobs during the summer school vacation."

Domestic employment and off private jobs provide opportunities for handicapped persons, she added.

Another requirement that must be enforced, Mrs. Evans asserted,

is one that a "family's plan for care of a child or sick or disabled adult should free as many employable persons as possible for employment."

LITTLE BEAVER

Dr. Sarah Hosman, missionary to Arabia, spoke Wednesday evening at prayer meeting in the Bible Presbyterian church and was heard also at the meeting of the Woman's Missionary society on Tuesday. Her subject was "Moslem Women."

Arwilda Rebekah Lodge No. 556 of Enon will put on the degree work for Margaret Sabina Lodge of Clinton when new members will be initiated.

Members of the Arwilda Lodge No. 556 of Enon attended a district meeting Wednesday evening at Rachael Lodge No. 40. Mrs. Margaret Brooks, district deputy, officiated. The Enon Lodge staged a cantata.

Mrs. C. P. McLaughlin of Youngstown and Mrs. Frank Conroy and daughter, Mary Grace, of Struthers, O., visited with relatives here Wednesday.

Mr. and Mrs. Walter Kurtz of New Castle were recent visitors at the home of relatives in Big Beaver township.

Mrs. H. C. Dudas and daughter were callers at Beaver Falls on Wednesday.

Mr. and Mrs. Wesley Headless of Beaver Falls called at the home of relatives here Sunday.

William Clemmer of East Palestine, O., called at the home of his uncle, Charles Clemmer, here Thursday.

Mr. and Mrs. Ira McPherson of New Brighton called at the home of friends here last week.

Carl Reed was a caller at New Castle recently.

BUILDING PERMITS

Joseph Cioffi, 1032 Cascade street, has been granted a permit by the city to construct a \$5,000, frame dwelling. Other building permits were issued to Joseph Nycz, 107 Fulton street, Kevin Goodman, 508 North Locust street, and Richard R. Mason, 1403 North Mercer street, to construct fences.

Local Office Will Supply New Social Security Cards

If you have lost your social security card, changed your name since you got your card, or have more than one social security number, you may lose your wage credits unless you notify your nearest social security office or the personnel office.

Your name on the payroll should be the same as the one on your social security card. If your name has changed since you got your card simply fill out a "request for change in records" form. You can get this form at the social security office, 500 Frow building in New Castle. A new card will be furnished free. It will show your correct name with your original number.

If your card has been lost or worn out mail the stub to the social security office and a duplicate will be sent to you. If you do not have the stub you can still get a new card by just filling out an application. Your new card will bear the same social security number you had before.

Don't ask for more than one number. If you should have more than one number you might have trouble getting all of the social security benefit payments that will be due to you and your family when you retire at or after age 65.

Moreover, your dependent survivors might have trouble getting all of their payments in case of your death.

If you now have more than one account number get in touch with your social security office and they will put all of your wage credits into one account.

TO AID CANCER FIGHT
To the Editor,
The News, City.
Dear Sir:

I wish that it were compulsory to take from everyone's pay just once a year one dollar for the fight against cancer. It would be so little and yet mean so much to those scientists who are struggling day in and day out to find the way that we might live without dread...to live a span of years without the thought that that scourge afflicting you or your children or their children can't be eradicated.

THIN OUT PLANTS IN VEGETABLE GARDEN

When plants are large enough to crowd each other they should be thinned out. This operation requires hard work and the job can be lightened by not having planted the seed too thickly.

Root crops need ample room to develop properly. "Allow beets, carrots, turnips, salsify and parsnips 2 to 4 inches between plants. Radishes require 1 to 2 inches. Thin head lettuce, spinach, Swiss chard, endive and other leafy crops so the plants stand 6 to 10 inches apart. The thinnings may be used for food or transplanted to other rows.

Bean plants should stand 4 inches apart, onions 2 to 3 inches and peas 1 inch. Corn should stand 10 to 12 inches between stalks or if planted in hills these should be about 24 inches apart and 2 to 3 stalks per hill. Tomatoes should be 3½ to 4 feet apart but if they are staked they may stand 18 to 24 inches apart in the row. Peppers, eggplants and cabbage should stand 18 to 24 inches apart, and cucumber plants should

stand at least 12 inches apart in the row or hills of three plants each should stand 4 feet apart.

SELECT HOME PLANTS

Select plants carefully for the home grounds. Choose the right plants for the right place. Avoid using tall growing timber, such as spruce or pines for foundation treatment. Dwarf grown species for this purpose as well as others, such as hemlocks, can be used provided shearing and pruning practices are followed. Some suitable evergreens for home beautification are Upright, English, Dwarf Japanese, Hicks and Hatfield yews; junipers and evergreen holly; also ericaceous plants, such as varieties of rhododendron, Mountain Laurel and others.

Among deciduous shrubs are spirea, philadelphus, dogwood, butterfly bush, lilac and others. Among the better grown covers are Japanese spruce, hardy English ivy and bittersweet.

SOCIETY & Clubs

BURKE-STAFFORD BEAUTIFUL RITE

Wearing an original gown of champagne lace and attended by a maid of honor in pale green embroidered organza, Miss Miriam Burke graced a beautiful procession for her marriage to William J. Stafford, at St. Joseph's church, Saturday morning, May 5, at 9 o'clock.

The bride is the daughter of A. Darrell Burke, North Jefferson street, and Mrs. Frances Burke, North Mill street, while the groom is the son of Mrs. Marion M. Stafford, 327 E. Wallace avenue, and the late William J. Stafford.

Officiating at the impressive single ring ceremony was Rev. F. Cornelius Becker. On the altar, white flowers were banked against a background of southern palms and scheffleria foliage, and tapering cathedral candles were lighted in Florentine candelabra on either side.

The stately brunette bride appeared in a gown fashioned with a steepled bodice. Two summer brown velvet flowers enhanced the beauty of the full waist length skirt. The ensemble's tiny jacket featured short sleeves and a Peter Pan collar of summer brocade. She wore a matching net bonnet trimmed with dainty forget-me-nots, and observed the traditional something old, new, borrowed and blue custom. A colonial bouquet centered with a white orchid completed the attractive trousseau.

As her sister's maid of honor, Miss Caroline Mae Burke wore with charm a gown of pale green embroidered organza, styled with a fitted bodice with tiny covered buttons from the Peter Pan collar to the waistline. A matching bonnet and mitts were pretty accents of the costume, and she carried a yellow colonial bouquet.

Robert Stafford served his brother as best man.

Miss Clare Duff, church organist, played several lovely nuptial selections during the nuptial high mass.

A wedding breakfast was served to the immediate families at the bride's home. The newlyweds later departed for a honeymoon to an undisclosed destination by motor, and will reside on Third street, Washington, Pa., upon their return.

Mr. and Mrs. Stafford are graduates of the New Castle senior high school, with the bride formerly affiliated with her father in business. The groom, who served three years with the Metropolitan insurance company at Washington, Pa.

SHARE IN 50TH ANNIVERSARY OF D.A.R. HERE

Some of the officers of the D.A.R. confer before their 50th anniversary luncheon at the Country Club on Saturday. They are: (left to right) Mrs. Marvin B. Dinsmore, regent of Lawrence chapter; Mrs. Herbert Patterson, vice state regent; Mrs. Thomas H. Lee, state regent; Mrs. Harlow Kirkpatrick, vice-president western district; and Mrs. Benjamin Williams, district regent.

Lawrence Chapter Of D. A. R. Celebrates 50th Anniversary

Lawrence Chapter members of the National Society of Daughters of the American Revolution will long remember May 5 as an outstanding day in their organization's history, that occasion marking the chapter's 50th anniversary. The event was celebrated with a delightful 1 o'clock luncheon at the New Castle Country club. A reception preceded at 12:45 o'clock.

After colors were presented with Mrs. Dale Mullen and Miss Jane Hawkins acting as pages, the first stanza of our national anthem was sung with Mrs. Jay L. Reed as accompanist. Mrs. Mullen, chosen as Betsy Ross for Pennsylvania, led the pledge of allegiance, while Mrs. C. A. Brown, chaplain, offered grace.

Places were arranged for 175, including a number of out-of-town guests from other chapters. Marguerites, cornflowers, smilax and an attractively dressed doll representing a regent's period of service, decorated each table. Beautiful arrangements of yellow carnations, snapdragons, gladioli and Japanese iris banked the mantels. Lovely bouquets were gifts from the Perry Chapter of 1812 and Kuskuska Chapter of American Colonists.

A beautiful four-tiered birthday cake, a gift of Mrs. Marvin B. Dinsmore, regent of Lawrence Chapter, her mother, Mrs. A. T. Pinkerton, was cut by Miss Jennie Morgan.

After a tasty luncheon was served, Mrs. Dinsmore, who served capably as toastmistress, welcomed the guests. Mrs. William J. Caldwell, well pleased with two lovely solos, "Loch Lomond" and "Twice Time", being accompanied by Mrs. Jay L. Reed.

Miss Jennie Morgan, organizing regent of Lawrence Chapter, gave an enlightening and inspiring history of the local group. Miss Mary R. Clarke, Mrs. G. S. Fowle, Miss Morgan, Mrs. C. S. Royce and Mrs. James T. Ray, five of the 18 charter members are still chapter members. The speaker told of the group's first colonial tea in the First Presbyterian church, each year being marked with one special entertainment.

Lawrence Chapter has helped with a number of community projects, including Boy Scouts, Margaret Henry Home and a Junior American club at the Neighborhood House. Each year a prize is offered to the high school senior writing the best American history essay. The organizing regent also told of the chapter's collecting gold and silver articles in a "melting pot" at Strimater's store, \$1,000 being contributed to the Red Cross during World War I.

In behalf of the chapter, Mrs. Dinsmore presented a D. A. R.

life membership and a lovely bouquet of yellow roses to Miss Morgan.

State Regent Mrs. Thomas Lee, Philadelphia, spoke, saying there are 168,000 members of the national society and 12,700 members in Pennsylvania. Mrs. Lee added that the national society's clock of buildings in Washington, D. C., is the largest in the world, operated by women.

Miss Mary R. Clarke, a charter member; Mrs. Francis E. Sowers, by Mrs. Francis G. Simonton, Mrs. William W. Campbell and Mrs. Henry Golder, chapter regents, were introduced. Miss Mildred Westlake, regent, Mahoning Chapter, Youngstown, O., brought greetings, that group being the mother chapter of Lawrence Chapter when it was organized in 1901.

Greetings were also extended by vice state regent, Mrs. Herbert Patterson, Pittsburgh; Mrs. Benjamin Williams, Butler; Mrs. Harlow Kirkpatrick, Pittsburgh, vice president, general western director; Mrs. M. McConnell, state recording secretary; Mrs. A. T. Eckles, regent of Perry Chapter of 1812; and Mrs. William W. Campbell, regent of Kuskuska Chapter of American Colonists.

Mrs. Fred L. Rentz, National Flag Day president, and Mrs. E. J. Blanning, Gold Star Mother of the chapter, were introduced.

Visiting regents were present from Aliquippa, Butler, New Wilmington, Grove City, Beaver, Coraopolis, Sharon, Waynesburg, Erie and Youngstown.

Mrs. Gust Sanfilippo, program committee chairman, announced that Judge John G. Lamoree will speak at the Flag Day program on June 14, in the home of Mrs. C. H. Johnson, 221 Moody avenue. Saturday's observance closed with singing "Auld Lang Syne".

Mrs. William W. Campbell, general chairman of arrangements, was assisted by the following committees: reservations, Mrs. Henry Golder; tickets, Miss Viola Wallace; Mrs. H. A. Decker, Mrs. Norman Keefer, Mrs. John Bigler and Mrs. Earle Cass; decorating, Mrs. Frank Moorhead, Mrs. Howard Humphrey, Mrs. James W. Moorehead, Mrs. Fred Clemens and Mrs. Wylie Patton; press, Mrs. Dale Mullen; menu, Mrs. J. F. Rentz and Mrs. W. G. Eckles, and transportation, Mrs. John Bigler.

Explorers Return
From Camp Agawam

At Mahoning school, there will be the regular meeting of the Explorer Crew of Boy Scout Troop No. 4, at seven o'clock this evening. Scoutmaster Bill Weitz will be in charge.

The Explorers returned on Sunday afternoon, from a pleasant weekend at Camp Agawam.

The boys prepared the meals for those participating in the Explorer Leaders course. Crew leaders Bill Shaffer was in charge of the group. The following Explorers took part: Frank Munno, Sam Frank, junior assistant scoutmaster John Finnin, James Gettings, David Muntean, Ray Olson, Francis Fazio.

Explorers found time between

meal preparations to have marksmanship practice, bait casting, and archery. Prior to the training period, the scoutmaster gave instruction on the several phases of exploring.

Four committees were chosen: Service committee—Bill Shaffer, Ray Olson, and Francis Fazio; social—Jim DeVidio, Donald and William Nocera; indoor committee—Frank Munno, David Muntean, and Duane Peters; outdoor—John Finnin, Jim Gettings, and Sam Frank. These committees will arrange for the activities under their jurisdiction.

save \$104 to **\$538** cash
Right at the start, you'd have to spend up to \$538 more for other competitive full-size two-door passenger cars in the low-price field. And you wouldn't get the smartness or the performance of the Henry J!
Initial savings—up to \$538

save \$10 to **\$20** on tires!
To begin with, you save about \$8 on the price of the Henry J tire—a 5:90 against the 6:70. Then you save up to \$12 more in less tire wear, for the Henry J has been engineered to give you up to 20% more tire mileage.
Tire savings—up to \$20

save \$45 to **\$98** on gas
With its amazing economy of up to 30 to 35 miles per gallon, the Henry J can save you up to more than 300 gallons of gas over the economy of the average car—every 10,000 miles! That can add up to as much as \$98!
Gas savings—up to \$98

save \$10 to **\$50** less maintenance
The Henry J has been economy-engineered! Its Superonic Engine is simple to adjust. Its body has fewer, less expensive parts, with everything easy to get at! Example: Rear fenders, not welded on, unbolt in minutes for quick fender work.
Maintenance savings—up to \$50

save \$10 to **\$60** in fees
Your savings will vary from state to state; but when you add up your Federal, local and state taxes, interest charges, insurance costs and license fees, you'll find there's considerably less to pay the Henry J way!
Fee savings—up to \$60

as low as **\$49** a month!
There's another saving to your budget—the low monthly payment possible on your Henry J! If your car is an early postwar model in good condition, for example, your Henry J payments can be as low as \$49 a month! Total savings: cost, tires, gas, maintenance fees—up to \$600!

BPW Members From Eight Counties At Meeting Here

An address by a national officer and the election and installation of officers for 1951-52, were highlights of the spring meeting of the Pennsylvania Federation of Business and Professional Women's club held in New Castle, on Saturday.

With the New Castle and Grove City clubs as hosts, District II, convened at 3 p.m., at the Cathedral with well over 200 women from 20 clubs in the area participating. Eight counties are represented in the district: Armstrong, Beaver, Butler, Clarion, Indiana, Jefferson, Lawrence and part of Allegheny.

Officers elected for the 1951-52 period during the afternoon agenda included: Chairman, Charlotte Jewart, of Rural Valley; first vice chairman, Esther Bauerlein, of Ambridge; second vice chairman, Isabella Kenah, of Rochester; recording secretary, Mary Jane Bauer of Ellwood City, and treasurer, Jean Jackson, of Sewickley. The corresponding secretary will be appointed in the near future by the new chairman.

Installation of these officers were held at the evening banquet with Mrs. Ada Good, of Kittanning, second vice president of the State presiding during the impressive services, and urged the vitalization of the processes of democracy in winning the war and the peace. The new president, Charlotte Jewart, then spoke briefly accepting her new responsibilities.

National Officer Speaks

"Setting the Pace in Your Community," was the interesting subject of the address given by Miss Grace Daniels of Kingston, Pa., national membership chairman of the B.P.W. Federation.

In an emphatic and concise manner, Miss Daniels spoke about the new program now adapted by the B.P.W. Federation. "It will have a new approach in its entirety, geared to meet the demands; and ready to be applied to your community. The program will have research and background ready to serve the youth of today."

The speaker continued: "Clubs in the Federation today should all be pace setters. With now 1,000,000 women strong in the organization, and a high percentage all prominent women—the top flight in their fields—the community more than ever look toward the B.P.W. clubs in their community for progress and action."

"Women of today accept responsibilities. They have experience which is invaluable; most of them have arrived, many of them help others who have not yet reached the top. Yet B.P.W. women know that their by-word is strength. And with strength there is power. Your Federation is only as strong as your members."

"And with strong women, fortified with their experience is meeting the public—a new pace is needed and set. A great expansion is noted—and this is indicative of great progress—a new pace setter. Your Federation," Miss Daniels, reminded the women, "is bigger than the state in which you live."

"The B.P.W. has learned the value of broad thinking. They know how to deal with the public in profession and in business."

"But," the speaker warned the club representatives, "if you have done nothing worthwhile in your community—that is by actual B.P.W. contact—then of what use are you?"

In conclusion Miss Daniels told the women that it is not always the large clubs that accomplish much. "Even B.P.W. with a small number do many things of worth in a community. Keep in mind that under the proper guidance the club will progress with strong members. Nothing else is important except to take the advantage of the B.P.W. leadership and with it you will stimulate others, perhaps educate them, but surely you will go forward."

Miss Florence Davis, district chairman, then presented Miss Daniels with a gift in appreciation of her time and efforts. The speaker responded graciously and warmly extended her thanks and best wishes for the federation.

A gay and colorful setting greeted the members and honored guests when they sat down to a delicious full-course chicken dinner at 6:15 o'clock. A garden setting complete with rose trellis and beautiful butterflies were the clever decorations. A metal match cover marked each place.

Miss Davis gave the invocation after the group sang the "Star Spangled Banner." Group singing was enjoyed under the direction of Adelaide Levy, with Patricia Carpenter at the piano. Introduced by Sarah Albin, president of Grove City B.P.W. club, the musical portion of the program was given by Mrs. Daphne Rudolph, with Miss Rudolph as accompanist. Mrs. Rudolph beautifully sang "If I Could Tell You," "My Lindy Lou," and "Grandma."

Toastmaster, Esther Bauerlein, of Ambridge, introduced the guests present. Miss Dorothy Long, president of the New Castle B.P.W. club, extended the welcome. Announcements by Miss Florence Davis, the installation and benediction brought the spring meeting to a close.

Business Meeting

The afternoon and evening spring meeting opened at 3 p.m. Saturday. The Collect—the B.P.W. creed opened the session. District Chairman Miss Florence Davis presided.

Important reports were given by Miss Davis, chairman of District II; Charlotte Jewart, District I

Organize Junior Church Sodality

St. Vitus church organized a junior sodality recently. Impressive church services were conducted, followed by a splendid school program.

Spiritual director is Rev. Fr. Albert Inteso, with moderator of the club being Sister M. Nicoletta.

The church program included a living rosary, hymns, litany of the Blessed Virgin Mary, the blessing of medals, Act of Consecration and the distribution of medal and membership cards. Father Inteso gave the inspiring sermon and the

services closed with Benediction of the Blessed Sacrament.

The school program opened with a prayer by Father Inteso. Songs by the sodalists followed. "Let's Raise Mama's Pay" was sung by Theresa Mastrangelo; "To Mother" by Carolyn Amabile; "Golly Gee" by Janora DeGregory.

The play "So She Made a Novena," was presented with the following participating in the cast: Mary Grace Natale, Mary Naples, Polly Ann Pratt, Margie Capezio, Phyllis George and Elvira Francio.

A beautiful tableau was presented of the joyful mysteries of the rosary. Gifts were presented to mothers, after which Fr. Inteso spoke. Others who participated in the program play included: Julianne Sbarro, Joanne Pauline, Ann Micco, Roseann Lombardo, Aileen Colao; Geraldine DeRico, Gloria Barletto, Lucy Jane DiMarzio and Mary Lou Mole.

Dainty refreshments were served at the close of the program.

Pre-School Clinic To Be Conducted At Bessemer School

A pre-school clinic for all children expecting to enter the first grade in September at Bessemer Elementary school on Thursday and Friday, May 10, 11, it is announced by Victor F. Thomas, Jr., supervising principal.

Parents are urged to bring their children to the clinic if the birthday occurs prior to Feb. 1, 1952. The clinic will be under the supervision of Miss Hannah Parks, county supervisor of special education.

Reading readiness tests will be given by the elementary teachers and visual auditory tests by Mrs. Eleanor Birt, school nurse, to determine whether or not children are mature enough for the first grade.

The bicycle with the rotary crank was patented November 20, 1866, by Pierre Lallemont.

Don't blame the butcher for the price of meat

Compare the cost of your telephone service with the cost of other things, and you'll agree that telephone service is a bargain.

Take your household expenses, for example. What you pay for vegetables, fruit, and meat for a single day is probably more than you pay for a full month of telephone service.

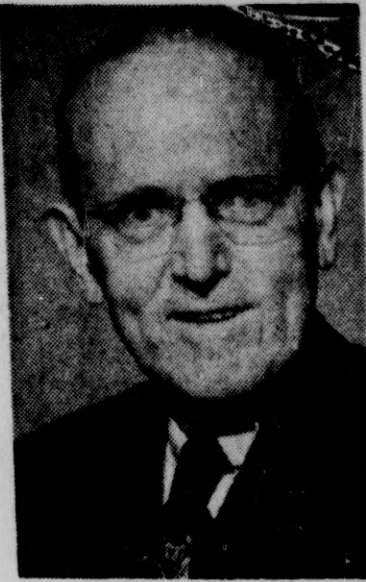

Don't blame the grocer or the butcher. Blame the dollar. In terms of what it will buy, the dollar is worth less today than ever before.

The dollar is pinching us, too. The cost of running the telephone household has been going up and up.

In spite of all this, we have been able to provide good telephone service at low cost. This hasn't been easy. But even if it should cost more, your telephone service, in comparison with other things, would still be a bargain.

Harry W. Bowen Chairman Of Chest Drive

—New Castle News Photos
HARRY W. BOWEN

Harry W. Bowen, manager of the G. C. Murphy Co. store in New Castle, has been appointed general chairman of the 1951 Community Chest of New Castle and vicinity campaign, it is announced today by A. H. Gonick, chest president.

Mr. Bowen has participated in Community Chest campaigns for a number of years and has also been very active in Red Cross, Heart, Westminster college and other campaigns.

"It is a great honor to be appointed chairman of such a worthwhile campaign and with humility I accept this honor," Mr. Bowen stated. "I am certain that with the cooperation that has always been a keynote of the Community Chest campaigns in New Castle and vicinity, we will have a successful campaign."

The chairman of the coming campaign has been manager of the New Castle store for the past five years, coming here after serving as superintendent of the G. C. Murphy stores in Maryland.

This was not his first introduction to New Castle, however, since he served as manager of the local Murphy store from 1929-1933.

Of all the cities that the Bowens lived and worked in, they liked New Castle best and Mr. Bowen requested to be returned here. All three children were graduated from New Castle high school, Janet and Russell, now living in Baltimore, during their first stay in the city, and Harry, Jr., since their return.

The 1951 Community Chest campaign will begin in October. Co-chairman for the drive will be announced at a later date.

Cairo Festivities In Celebration Of King's Marriage

CAIRO, May 7.—(INS)—Cairo plunged gaily today into the second day of unprecedented festivities celebrating the marriage of King Farouk and his 17-year-old commoner bride. The royal couple were scheduled to receive two thousand guests at a palace reception.

At that time the fabulously wealthy monarch of the Nile and the former Narmann Sadek will accept the congratulations of the diplomatic corps and top government officials. The reception in the glittering Abdin palace will be followed by a state banquet for 400 guests.

At the end of the three days of nation-wide celebrating, which is costing the government an estimated three million dollars, the royal pair will leave on an extended honeymoon.

But where they go is still a state secret. At first it was rumored that the 31-year-old king and the girl he reportedly fell in love with when he saw her in a jewelry store would honeymoon within the country.

Indians Win 12-4 Before Opening Day Crowd, Tie Erie For Lead

Don Lavigne Hits Two Homers, Kowalski, Horne One Apiece As Indians Tounce Niagara Falls

The New Castle Indians began their home league season yesterday with a bang, literally speaking, slamming four homers, seven in all, three by the opposition, as the Tribesmen tounced Niagara Falls, 12-4, with close to 2,000 fans looking on.

Don Lavigne, the Chicopee Falls, Mass., slammer began his quest for home run honors in the league by clouting two over the fence, one in the first inning, and another in fifth, to add to the one he hit at Butler Saturday night, giving the fleet-footed centerfielder three to date. Walt Kowalski blasted a homer in the seventh and Bill Horne hit one in the same inning. Lavigne led the league in homers last year blasting 25.

Three Niagara Falls players also hit homers—Hank DiJohnson in the fourth, Bud Doyle in the sixth, and Don Toit in the eighth.

Rossman Goes Distance

Ben Rossman, the Chicago boy despite a ten-hit barrage by the Falls, lasted the entire nine innings, the third New Castle hurler to go the distance since the league opened.

The Indians today are tied with Erie for the league lead, with three wins and no defeats. The Indians trimmed Butler Saturday night, 14-9.

Tonight Manager Al Milnar will send rookie hurler Lee Bickel to the hill to try for the fourth win of the year.

Game time tonight is 8:30 o'clock. The Tuesday game starts at 8 o'clock.

Fine Opening Day Ceremonies

Business Manager Jack Lewis arranged a very eye-pleasing opening day ceremony—the American Legion Band from the Perry S. Gaston Post, No. 343, escorted the players to the flag pole in left field, raised the flag as the band played the "Star Spangled Banner" and his Honor Mayor John Haven took the "hill" and hurled the first ball, the players were announced individually and the game was on.

It was an impressive opening with the fans liking what they saw of the 1951 Indians.

Al Scarazzo and his 25 board of directors take a bow on a grand job well done, in putting together a team that looks destined to give all clubs in the six-team league a "run for their money."

Reid Welcomes Indians

Prior to the start of the game yesterday Ebon L. Reid, executive Vice President of the Greater New Castle Association gave a short and well received speech of welcome to the New Castle Indians, and to the management of the team, wishing them success for 1951.

Glen "Gyp" Lewis, veteran Cleveland Indians scout took a

sweep the opening two-game series. Zedalis was only in trouble in the latter innings as he tired a bit from the first full game of the year he has pitched. The Indians led by Lavigne, Kowalski and Horne had piled up a lead of 11 to 3 in the first five innings, scoring seven runs in the third on three hits and a trio of Butler errors, together with three walks.

In the fourth inning Lavigne blasted a 385 foot homer over the left field wall, his first of the year. He also had two singles getting three for five to lead the Indians at bat.

Rudy Johnson Injured

Rudy Johnson the Negro right-fielder was hit on the arm by a pitched ball in the third inning, and required hospital attention, Bilo taking over in right. Johnson may get back in the game tonight. Johnson had three hits in six trips in his first two league games. He hits a hard ball.

Indians Bang Out 15 Hits

The Indians banged out 15 hits yesterday against two Niagara Falls hurlers, Goodenough and Shaffer, with Chet Butler the only hitless Brave in the lineup.

The veteran Hank DiJohnson and Bud Doyle led the manager Jim Davis crew with two hits apiece. Davis managed the championship Oil City Refiners last year.

Defensively the Indians looked impressive, only one error by Joe Frisina on a hard-hit liner in the sixth being recorded. Niagara Falls had three bobbles, two costly.

Lavigne Fielding Gem

Lavigne provided the fielding gem of the day robbing Sammy DePerro of a triple in the eighth inning by going to the light-stand and in left-center for his terrific smash. Lavigne was shaken up but not seriously injured as he went right against the fence, just like

Lepores Open With Win Over DeCarbos

Lepores Junior American Legion baseball team opened its 1951 season Saturday with a 9-0 win over DeCarbos in a non-league encounter. The winners slapped out 15 hits, including a home run by Pastore.

Tarnoci and Matteo hurled for Lepores, allowing only two hits. Lepores would like to book games with other American Legion teams, it is announced by managers "Bullet" Lepore and "Zeke" Zarilla.

Legion Junior Loop To Meet Wednesday, Season Opens May 21

There will be an important meeting of the American Legion junior baseball league at the Legion Home on Wednesday evening, May 9, at 7:30, it is announced by Ted Clarke, assistant manager.

This will be the last meeting of the league prior to the opening of the season on May 21. A number of important subjects will be discussed and it is urged that all sponsors and managers attend.

The contracts have arrived and will be issued to team managers. A tentative schedule has been drawn up and will be completed at the meeting.

League umpires are also urged to attend the meeting and any person willing to serve as umpire is urged to be present. For the first time in the league history, a trophy for the most valuable player will be awarded this year. Three other trophies will be awarded to team winners.

Try-out sessions for the Post team have had a fine response, it is reported, with 37 boys in attendance Friday. It will be several weeks before the final selection of players will be made and all boys are urged to continue attending. The next practice will be held tonight at George Washington field at 5:30.

A meeting of the Legion County league was held at the Legion Home Friday night. Representatives were present from New Wilmington, Ellwood City, Wampum and New Castle. Plans for the coming season were discussed and June 4 set for probable opening date.

The meeting was in charge of Wayne Baird of Ellwood City, who is league representative for the 1951 season.

MAYOR HURLS FIRST BALL—His Honor Mayor John Haven in the act of delivering the first pitch of the Middle-Atlantic League season at Liberty Memorial Field Sunday afternoon as nearly 2,000 fans looked on. Receiving ball of the plate is Bill Horne, Indians' catcher. Also shown are a few of the Indians at their positions on the field. In the foreground some of the box-seat fans. The pitch just caught the outside corner. The Indians went ahead to top Niagara Falls, 12-4.

Titans Subdue Rockets Behind Hyder, 7-3

Jerry Hyder, southpaw hurler, Saturday pitched Westminster college to a 7-3 victory over Slippery Rock college. It avenged an earlier defeat, of 9-3, by the Rockets, over the Titans.

It was Westminster's second win against two defeats.

Hyder allowed nine hits, including three doubles, and issued seven walks while striking out eight. He kicked in with two singles to drive in a pair of runs.

The Titans scored four times in the third inning after two outs on a walk and four singles. They picked up three more in the sixth on four singles.

Slippery Rock counted once in the fifth, seventh and eighth innings.

Young started on the mound for Slippery Rock and was relieved by Chidester in the third.

Westminster plays again at home against Clarion State Teachers on Tuesday.

Polish Falcons Bowlers Feted

Lanners Capture Bowling Title

Members of the Polish Falcons Bowling league were honor guests at a banquet Saturday evening in the Falcons hall, following which dancing was enjoyed. The Lanners won the championship, having defeated the Falcons in the play-off.

An all-star team, picked from the league, bowled in the National Polish Falcons' meet at Elizabeth, N. J., recently, and two of them, Edward Kendra and Stanley Johnson got into the money.

During the Saturday evening proclivities, the players were congratulated by President Adam Pseny and Vice President Andy Lasky.

Among those who attended the fete was Tony Ostrowski, who, like Lasky, participated as a varsity athlete at New Castle high and later in college. Ostrowski having starred for Carnegie Tech and Lasky, for Pitt.

Penn-Ohio Golf Lead Tied Up

New Castle Wins One Match Sunday

Boulevard team of Youngstown picked up four wins Sunday at the Mahoning Country Club to tie the Slovenian Home of Sharon for first place honors in the Penn-Ohio Golf League.

Frank's team of New Castle picked up one win, but that was enough to pull it up to a tie with the Warren team.

James Lucarell of the Livingston team of Youngstown and L. Bobola of Boulevard were medalists with 68's over the par 70 course. Fred Palmer and Bob Palmer were medalists for the New Castle team with 74's.

In the Penn-Ohio League, six members play on a team, with five teams competing. One golfer from each team plays in a fivesome and points are awarded on match play and medal play.

Wins and losses are figured on the team as a whole. If New Castle golfers win four of the six matches over the Warren team, New Castle gets a win over Warren.

As it happened Sunday New Castle won from Warren, but lost to the other three teams.

There will be no matches next Sunday, because of Mothers Day. Sunday, May 20, the league will play at Castle Hills golf course.

Cliff Chambers Hurls No-Hitter For Pirates In Topping Braves 3-0

By HOWARD SIGMAND (I. N. S. Sports Writer)

NEW YORK, May 7.—Cliff Chambers, up to now just another guy who pitched baseballs for a living, was the proud possessor today of one of those once-in-a-lifetime games all pitchers dream about.

The badge of honor for the Pittsburgh Pirate lefthander is a no-hit, no-run game, first in the major leagues since Vern Bickford of the Boston Braves zeroed the Brooklyn Dodgers, 7 to 0 last August.

Ironically, Chambers' no-hitter game against the Braves in the second game of a doubleheader at Boston yesterday which the Pirates won, 3 to 0. It also took the shine off Warren Spahn's second straight shutout effort that gave Boston a 6 to 0 first game win.

It was Lefty Cliff's "dream" game of his career, a career which has spanned three years in the majors and hasn't been outstanding in the won and lost column. In his freshman year with the Chicago Cubs in 1948, Chambers' had a 2-9 record. Trade to the Bucs in 1949 the southpaw won 13 and lost 7 and last season he had a 12-15 mark.

The St. Louis Cardinals took advantage of the Boston split to take over undisputed possession of first place. The Redbirds downed the Brooklyn Dodgers, 11 to 7 with a six run rally in the eighth that overcame a three-run homer by Duke Snider and a grand-slam circuit cut by Pee Wee Reese.

Philadelphia split with the Chicago Cubs. The Phils won the opener, 5 to 4 with a four run outburst off Frank Hillier in the sixth and the Cubs won the nightcap, 9 to 7 with a two run spurge in the New York Giants came back to beat the Cincinnati Reds, 8 to 4 in 3 first game victory.

The New York Yankees strengthened their American league lead by pasting the Detroit Tigers, 11 to 6, for their eighth straight win.

Indians-Senators Split Cleveland kept a slight edge over Washington for second place by splitting with the Senators. The Nats took the opener, 8 to 1, but Lefty Lou Brissie, who lost the first game in his first Tribe start, came back to preserve their 4 to 2 win in the nightcap.

Boston and St. Louis split. A tenth inning homer by Ted Williams gave the Sox a 5 to 4 first game win and the Browns won the nightcap, 8 to 2 behind Al Widmar.

The Chicago White Sox beat the Philadelphia Athletics twice, 4 to 1, and 8 to 3.

New Castle High School golf and track teams are in for a busy time this week, with two golf and track meets on the schedule.

The golf team will play host to Butler Tuesday at Castle Hills and will meet Sharon in a postponed match Friday at Castle Hills. The Cane golfers dropped matches to both teams on away courses.

The track team will travel to Struthers Wednesday for a five-way meet and will be host team Friday at Taggart Stadium for the WPIAL regional meet.

HERE and THERE IN SPORTS LAND

FISHERMEN CAN DO considerable to better relations between farmers and anglers and one of the considerations is a clean-up project. During the Lawrence County Sportsman's association banquet in the Cathedral, Eddie Fritz, Jr., in a short address, appealed to fishermen to not litter embankments with tin cans, lunch containers and bottles. At the Mahoning Sportsman's meeting, Mr. Conti told Here & There that he proposed to ask the Lawrence County Council of Sportsmen to sponsor a clean-up project. He would have members of every outdoor organization affiliated with the council meet, assign them a stream, along which they would travel and remove unsightly objects. He said he believes such a campaign would please farmers and better relations between tillers of the soil and sportsmen who seek enjoyment on someone else's land.

To put one in the farmer's place, how would he like to have his rear or front yard in the city filled with tin cans, lunch containers, old newspapers and bottles? The city man would yell for the "cops," and the ruralite would be promptly hauled before the mayor. No one has the right to spoil the appearance of a farm, or creek embankment, than a farmer has of coming to the city and doing something destructive of a farmer's appearance. There are a lot of sportsmen who say, "Let us do something about this situation," but that is as far as they get. Mr. Conti's idea of grouping together to get rid of unsightly objects is worthy of consideration. When one goes to Canada, he must bury his refuse. Why not do it in this country?

HARRIS BRETH, state legislature, who made a forceful address at the Hillsville banquet was procured through Del Porter, Aero Game Feeding club official. . . . Jimmy Bevins chalked up a decision over Willie Bean of Los Angeles. Possibly Bevins, at this late date in his career, has determined to cease being a "bad boy" and trying to forge ahead. Jimmy was named the "bad boy of Cleveland," due to his lack of real training for ring engagements. . . . Roland La Starza scored his twenty first kayo over Vern Mitchell of Detroit in New York. It was his ninth consecutive win since he was knocked out by Rocky Marciano. And by virtue of his Mitchell victory hopes to meet Rocky again. According to reports, Roland was busy every second and fought a good fight, winning when Referee Barney Felix stopped the fight in the eighth. . . . City Baseball league will open up of opening of the season May 13. The City circuit should be faster this season, inasmuch as Wampum and Bessemer, formerly of the County loop, are enrolled as members. . . . Castledown Rod & Gun club will hold a get-together May 19, at East New Castle Grange hall. . . . There will be added interest in baseball here this season, due to the opening in July of the Little Big league. The players, eight to 13 years old, will get started, in an organized way, and some of them years from now may wear a major leaguer's uniform.

tennis, and track squads all play W. & J. at Washington.

Westminster Sports Squads Face Enemies Ten Times This Week

Westminster college continues its busy spring sports schedule the coming week with nine of ten contests being played from home. The tennis team, showing one victory and two defeats, starts the week's activities Monday with a meet against Pitt at Pittsburgh. On Tuesday afternoon the baseball squad, with a 2-2 record, plays Clarion here, and the golf team, 5-1-1, engage Duquesne at Pittsburgh.

Count Turf Derby Winner

Outsider Wins Over Big Field

By CHARLES EINHORN
(I. N. S. Sports Writer)

LOUISVILLE, May 7.—It took 77 years, but the Kentucky Derby finally came up with a Royal family — grandpa Reigh Count, Poppa Count Fleet, and now the three-year-old kid, one of the fastest derby winners of all time, Count Turf.

One of the most lightly regarded choices in history, Count Turf today could show not only a quarter length victory over 19 pursuers in history's richest derby Saturday, but the fourth fastest clocking in derby history. His 2.02 3/5 was faster than either Count Fleet or Reigh Count could show as favorites as they set in motion this first three-generation grip on the winner's circle at Churchill Downs.

The fact remains, though, that this was the first mile and a quarter test of the season, and until the Belmont stakes Count Turf must be called the best of the bunch.

He isn't eligible for the Preakness. Neither is Royal Mustang, a rank outsider who finished second in the derby Saturday, nor Ruhe, who finished third.

Most observers pick the Cubs to finish seventh or eighth in the National League.

Titans Blank 'Gators 9-0 At Country Club

Westminster's College golf team won their fifth meet of the season today when they shut out Allegheny College, 9-0, at the New Castle Country Club.

Whitmer and Whitaker, of Westminster, beat Krueger and Wright of Allegheny, 5 and 3; Garver and Kessler of Westminster, beat Graffan and Zuberbuhler, of Allegheny, 3 and 1; Wharton and Wilson for the Titans beat Clancy and Johnson of Allegheny, 8 and 6; Jack Whitmer, of Westminster, took medalist honors with a 74.

Summary:
Westminster — Whitmer 74, Whitaker 78; Garver 85, Kessler 83; Wharton 78, Wilson 80.
Allegheny — Krueger 85, Wright 81; Graffan 92, Zuberbuhler 89; Clancy 93, Johnson 95.

Women Wrestlers Coming June 15

Women wrestlers will display their mat ability June 15 night at P. J. Flaherty field, it was announced by the Jefferson A.C. today. There has been no wrestling here since the Arena was burned down. Several mat shows, and possibly a boxing show, will be held at the field this summer.

Friday, May 11

Bossert vs. Ross-Morelli at Gaston Park—Kelly and Legana. S. S. Board vs. Teamsters at Cascade field—Riley and Palmer. N. C. Welding vs. Scott Pontiac at Rose avenue—S. Richards and T. Richards.

Notre Dame's "subway alumni" and other followers of Irish football fortunes have had news straight from Frank Leahy, a notably pessimistic profession. This fall's Irish eleven will do no better than last year's, Leahy says.

Tiniest man on the Penn State lacrosse team is the goalie and captain, Phil Benedetti, of Philadelphia, Pa.

A football game, per se, is a wonderful thing to watch, but when football becomes more important than the university itself—as sometimes happens—and when schools openly grovel for post-season football bids and the resultant pay day, kids seeking an education must get a distorted view of the world they live in.
